THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Published by the Office of Public Relations. Editor, Betsy Ott.

Monday, January 20, 1969

The Board of Trustees, at its January meeting last Thursday afternoon, took several significant actions:

1. Approved a resolution to invite the following to attend future meetings of the Board as guests: the Chairman of the Executive Committee of the University Senate; the President of the General Alumni Association; and a student representative who shall have been duly elected annually by the student body to the office of President of the Student Government, in accordance with provisions of the Articles of Student Government. In the past, Board meetings have been closed except for certain University administrators and special guests.

2. Endorsed the action taken by its Executive Committee in approving the University Senate's resolution which states: "Any member of the University (including as members of the University all persons having a formal connection with the University) who engages in conduct that unreasonably obstructs teaching, research, and learning, or who unreasonably obstructs free access to members or guests of the University or to University buildings, or who disobeys general regulations of the University, or who damages University property or injures members or guests of the University, may be punished for his conduct by dismissal from the University, or by some lesser disciplinary action, through procedures established within the University for the government of its members." The Board statement, as approved by its Executive Committee on the recommendation of President Elliott, also added: "In order to insure due process, any student subjected to dismissal or other disciplinary action on the grounds of violating any of the premises of this resolution shall have, at his discretion, the right of review of the action by the University Hearing Committee on Student Affairs."

3. Approved an operating budget of $61,227,950 for the 1969-70 fiscal year, an increase of $6,000,000 over the present budget. The budget will again be balanced, a rarity in private higher education, as George Washington boosts average faculty salaries close to the nation's highest level for college teachers; enhances library services with an additional $100,000 allocation; and prepares to open, this fall, the $9,000,000 University Center which, in itself, adds to the budget $1,300,000 in income and expenses.

Tuition will be raised $100 an academic year for full-time undergraduates (to $1,800); $4.00 per credit hour for part-time and graduate students (to $64 per semester hour); $75 a year for students in the medical school (to $1,950); and $100 a year for full-time law students (to $1,700) and engineering students (to $1,850). Charges for off-campus courses offered through the College of General Studies will be increased from $44 to $47 for each semester hour.

Full-time campus students will be charged a University Center fee of $75 per year, while part-time campus students will pay a fee of $3.50 per semester hour.

Faculty salary averages (not including the School of Medicine) will be increased as follows (not including fringe benefits): full professors, from $16,922 to $18,792; associate professors, from $12,427 to $12,843; assistant professors, from $9,858 to $10,201; and instructors from $7,210 to $7,327. Fringe benefits vary from $1,135 for instructors to $2,304 for full professors.

The increase means that the University is on schedule in its effort to achieve the "A" salary scale of the American Association of University professors by 1970-71. All faculty ranks, except full professors, are now at the "A" scale.

Of the total University budget for 1969-70, 40 per cent represents income and expenses for the Medical Center, including the Hospital and the School of Medicine.

****

The George Washington University Magazine, GW (published by the Office of Public Relations), was honored last week by Time/Life, Inc., at the District II meeting of the American Alumni Council. In the form of a Time/Life American Alumni Council Citation, the publication was recognized for improvement in magazine publishing from 1967 to 1968.

More than 45 college and university magazines from New York, New Jersey, Pennsylvania, Delaware, Washington, D.C., Maryland, West Virginia, Ontario, and Puerto Rico were entered in the competition. Only four publications were honored. Numerous changes have been made in the design, format, and content of GW Magazine, as of the Fall, 1968, issue. David Jeffery is Editor of GW Magazine.

President Elliott will be honored with an honorary Doctor of Laws degree at the 135th Commencement Exercises of the University of Maine on Jan. 25. Dr. Elliott, who served as President of the University from 1958 to 1965, will also be the commencement speaker at the ceremonies in Orono, Maine.

SELECTED CALENDAR EVENTS OF THE WEEK

23 Thursday

D.C. Chapter, G.W.U. Law Association, Luncheon: National Lawyers Club, 12:00 p.m.

PAUL TAYLOR MODERN DANCE CONCERT - Washington Performing Arts Society, Lisner Aud., 8:30 p.m. (also Friday, 8:30 p.m.) Tickets: 393-4433.

25 Saturday

MUSIC FROM MARLBORO CONCERT - Washington Performing Arts Society, Lisner Aud., 3:00 p.m. Tickets - 393-4433.

POMPONIO & ZARATE - GUITARISTS - Washington Performing Arts Society, Lisner Aud., 8:30 p.m. Tickets - 393-4433.

26 Sunday

THE PEOPLE'S PART: Discussion of the concept of "Participatory Democracy," with the Hon. Thomas W. Fletcher, Deputy Mayor-Commissioner for the District; Dr. Royce Hanson, President of the Washington Center for Metropolitan Studies; and David Davenport, GW law student. Peggi Drum, Office of Public Relations, coordinated the program which will be shown on WRC-TV, 10:30 a.m.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for academic and administrative officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, January 27, 1969

Supreme Court Chief Justice Earl Warren will deliver the commencement address at GW's Winter Convocation on Saturday, February 22, at 11:00 a.m. in Constitution Hall. President Elliott will confer the honorary degree of Doctor of Public Service upon the Chief Justice. Approximately 750 will receive degrees at the exercises.

George V. Allen, Director of the Foreign Service Institute, Department of State, has been appointed "Ambassador in Residence" for the spring semester at GW. While on the campus, Mr. Allen will work in an advisory capacity with faculty in presenting material related to International Affairs, as well as participate in seminars and courses in this field. The former Director of the U.S. Information Agency (1957-60), Mr. Allen has held Ambassadorial posts in five foreign countries, including Iran, Yugoslavia, India, Napal, and Greece. He entered the U.S. Foreign Service in 1930, serving successive tours as Vice-consul in Jamaica, China and Greece, and Consul and Diplomatic Secretary in Egypt. Mr. Allen was Assistant Secretary of State from 1948-50, during the Truman Administration.

The Department of Chemistry has appointed 11 persons--alumni, interested citizens, faculty members and students--to its Advisory Committee. This committee is the first of several to be organized in various GW departments as the result of a program originated by President Elliott to involve GW publics in the development of "a more effective educational program." The Advisory Committee program will enable alumni, citizens, faculty and students to examine the curriculum of a department; to consider student, alumni and employer opinions of the value of courses; and to offer organized suggestions for change.

John M. Olin, former chairman and now honorary chairman of the board of Olin Mathieson Chemical Corporation, has been named recipient of the Charles F. Kettering Award for 1968 by GW's Patent, Trademark and Copyright Research Institute. Named in honor of the late Dr. Kettering, chairman of the board of the Charles F. Kettering Foundation and a director and research consultant to the General Motors Corporation, the award is presented annually by the PTC Research Institute for outstanding work in research and education in the fields of invention, innovation, patents, trademarks, copyrights and related fields.

A $52,493 grant from The Seeing Eye, Inc. will be utilized by the Medical School to establish an ophthalmology research center in the Department of Ophthalmology. There are presently eight full-time members of the department and nine residents engaged in research, teaching and patient care, in addition to a large staff with clinical appointments serving on a volunteer basis. The grant will make possible the addition of key research individuals and a significant amount of research space for these new researchers and the University's present staff.

Students, faculty and other full-time University personnel are entitled to special low rates at Sheraton Hotels and Motor Inns. For further information, contact: COLLEGE RELATIONS DEPARTMENT, Sheraton-Park Hotel, 2600 Woodley Rd., N.W. Washington, D.C. 20008. Phone (202) COlumbia 5-2000.

GW has received The Outstanding Citizen Award, presented by the United Givers Fund for outstanding participation in the 1968 campaign in the District of Columbia. The University total for the University's campaign this year was $40,000, an increase of nearly $8,000 over last year's figure.

GW's Class of 1967 has announced the establishment of a fund to provide a scholarship or scholarships "for deserving and qualified students from Washington's inner-city." This will add to the already-existing special grants-in-aid for inner-city students. There are now 25 students studying with the aid of these funds.

SELECTED CALENDAR EVENTS OF THE WEEK

28 Tuesday

BASKETBALL - GW vs. Davidson. Ft. Meyer, 8:30 p.m.

31 Friday

NATIONAL BALLET - Lisner Aud., 8:30 p.m. Tickets: DU7-5544.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, February 3, 1969

GW and the Potomac Electric Power Company have signed a long-term agreement (30 years) whereby the University will build an all-electric office building to be leased to PEPCo on the entire square fronting on Pennsylvania Avenue, N.W., and located between Pennsylvania Avenue, H Street, 19th and 20th Streets, N.W.

"This agreement is part of GW's long-range program to develop its Pennsylvania Avenue frontage in keeping with the Avenue's importance as the ceremonial boulevard of the Nation's Capital and as a business venture to contribute financially to the University's expanding educational program," said Henry W. Herzog, GW Vice President and Treasurer. "This is the second unit of this plan, the first, GW's Joseph Henry Building, having recently been completed at the southwest corner of Pennsylvania Avenue and 21st Street, N.W. and leased to the National Academy of Sciences."

This investment property is being developed by the University in accordance with the school's long-range land use plan on file with the National Capital Planning Commission.

Under the terms of the lease with PEPCo, the University will construct an eight-story office building, costing approximately $13,500,000, containing approximately 400,000 square feet of office space with two levels of underground parking.

Construction is expected to begin later this year with occupancy in early 1972. Mills, Petticord and Mills have been commissioned as architects and engineers. Permanent financing is being provided by the New York Life Insurance Company through the office of Randall H. Hagner and Company.

Patricia Roberts Harris, LL.B.'60, and former U.S. Ambassador to Luxembourg, has been appointed Dean of the Howard University School of Law. She will assume her position on February 1.

An honor graduate of GW's law school, Mrs. Harris was the first Negro woman ambassador to represent the United States abroad. She has been a member of the Howard University staff since September, 1961, serving as associate dean of students and assistant and associate professor of law.

Heroin--the most destructive drug--and the highest priced commodity in the world today--will be examined when WRC-TV presents The Distant Drummer: Flowers of Darkness on Thursday, Feb. 6, from 9:30 to 10 p.m. This second program in the three part Distant Drummer Series will be hosted by actor Paul Newman. (Continued on next page.)

Following the film, Dr. Murdock Head, Professor and Chairman of the Department of Medical and Public Affairs at GW, will interview Dr. Morton Miller, director of the Division of Special Mental Health Programs at the National Institute of Mental Health in Washington. Dr. Head, executive producer of the special, raises such issues as the stereotype of "Sexually Motivated Dope Fiends" and questions the popular suggestion that today's marijuana experimenters are tomorrow's heroin addicts.

SELECTED CALENDAR EVENTS OF THE WEEK

3 Monday

ACADEMIC EVALUATION MEETING - Library, Faculty Conference Room, 8:45-10:30 p.m.

4 Tuesday

UNIVERSITY CENTER MEETING - Rice, Rm. 615, 2:30-4:00 p.m.

5 Wednesday

HOSPITAL WOMEN'S BOARD - Decatur House, 11:00 a.m.

BASKETBALL GAME - GW vs. Navy - Fort Myer, 8:30 p.m.

6 Thursday

SENATE ATHLETIC COMMITTEE MEETING - Rice, Rm. 615, 3:00-5:00 p.m.

STUDENT COUNCIL - Library, Faculty Conference Rm., 9:00 p.m.

UNIVERSITY CONCERT SERIES - performed by the George Washington University Quartet, Lisner Aud., 8:30 p.m. Open to the public, free of charge.

DIMOCK ART GALLERY OPENING - Exhibit by Sidney Goodman, 5:00-8:00 p.m., Lower Lisner.

THE DISTANT DRUMMER: Flowers of Darkness - WRC-TV, 9:30 p.m.

8 Saturday

ALI AKBAR KAHN CONCERT - Lisner Aud., 8:30 p.m. Tickets: 393-4433.

GOLDEN JUBILEE TEA - Sponsored by Columbian Women. Ford's Theatre, 10:00 a.m.

9 Sunday

JULIAN BREAM - Guitarist - Lisner Aud., 7:30 p.m. Tickets: 393-4433.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, February 10, 1969

GW is now participating in a new financial aid program for law enforcement and correctional personnel, intended to help pay the cost of tuition fees, books and other educational expenses of officers who are employed by publicly funded law enforcement or correctional agencies. Studies may be full or part-time in a wide range of subject areas and degree goals. Priority will be given to law enforcement and correctional officers who are employed on the city, county or state level.

A special subcommittee of the Student Life Committee has nearly completed work on a "Joint Statement of Student Civil Rights," which, during this semester, is to be presented for consideration by the Student Council, University Senate and Board of Trustees.

In essence, the Statement, as it will apply to GW, will attempt to outline maximum freedom and rights of students to learn, of faculty to teach and to conduct research, and of other members of the academic community to conduct normal and necessary functions in support of these activities; sets out certain responsibilities for all members of the academic community which are necessary in order to guarantee and provide such rights and freedoms; and includes the principle that students are also citizens, and as such, the institution may not deny those rights, protections and guarantees that are provided to all citizens. Similarly the institution may not prevent those enforcement agencies from prosecuting any student who violates the laws of the larger society. These general guidelines have provided a workable framework within which the committee has outlined provisions as they specifically relate to George Washington.

Eight GW alumni are among the scientific and professional employees of the NASA-Marshall Space Flight Center in Huntsville, Ala., which is directed by Dr. Wernher von Braun. Personnel at the Huntsville Flight Center have been involved in the development of the Saturn/Apollo rocket, to launch American astronauts to the Moon, and contributed to the historical launch of Apollo 8, which sent three astronauts into orbit around the Moon.

The GW graduates have degrees in law, finance, accounting, mathematics, and engineering.

GW's PTC Research Institute will mark its Fifteenth Anniversary on Feb. 11 at a reception from 4 to 6 p.m. in the Heritage Room of the Shoreham Hotel. The non-profit Institute, established in 1954 by GW as part of its research and educational facilities, published the highly regarded journal, Idea, and has attained international recognition in its field.

David B. Weaver, Professor of Law, has received this year's Emil Brown Fund Prize Award for writing in the field of preventive law. The award-winning article is entitled, "An Analysis of Estate Planning Devices to Meet the Contingency of Incompetency," and appears in a book, Mental Impairment and Legal Incompetency, edited by two GW professors, Richard C. Allen, Professor of Law, and Elyce Z. Ferster, Associate Professor of Law.

SELECTED CALENDAR EVENTS OF THE WEEK

11 Tuesday

STUDENT HEALTH MEETING - Library, Faculty Conference Room, 7:30-11 p.m.

12 Wednesday

INTERFAITH FORUM - Speaker: Monroe Freedman, Professor of Law. Topic: "Black Power and White Liberals." Woodhull House, Rm. C, Noon.

MEETING OF THE UNIVERSITY SENATE'S COMMITTEE ON APPOINTMENT, SALARY AND PROMOTION POLICIES - Rice, Rm. 615, 4-6 p.m.

STUDENT COUNCIL MEETING - Library, Faculty Conference Room, 9 p.m.

13 Thursday

PERSONNEL ORIENTATION - Woodhull House, Rm. A, 10 a.m.-12 p.m.

DISCUSSION OF DAY OF DIALOGUE - Monroe, Rm. 104, 3-5 p.m.

PTC RESEARCH INSTITUTE RECEPTION - Shoreham Hotel, Heritage Room, 4-6 p.m.

NATIONAL SYMPHONY ORCHESTRA - Aaron Copeland, guest conducter. Lisner Aud., 2 p.m.

14 Friday

STUDENT COUNCIL ELECTION - Woodhull House, Rm. C, 9 a.m.-6 p.m.

A FORUM ON MARRIAGE - B'nai B'rith Hillel Foundation - Topic: "Jewish Marriage in the Shtetl." Speaker: Elizabeth Herzog, Chief, Child-life Studies, Department of Health, Education and Welfare and co-author of Life is With People. 12:30 p.m. 2129 F St., N.W.

UNIVERSITY SENATE MEETING - Library, Faculty Conference Room, 2:10 p.m.

15 Saturday

ACADEMIC EVALUATION MEETING - Library, Faculty Conference Room, 9 a.m.-5 p.m.

SUSAN STARR - Pianist, sponsored by the Washington Performing Arts Society, Lisner Aud., 3 p.m.

GWU INAUGURAL CONCERT - By the "Blood, Sweat and Tears" and David Frye. Lisner Aud., 8 p.m.

16 Sunday

OPERA - Manon Lescaut. Lisner Aud., 8 p.m. Performances also on 18th and 20th at 8 p.m.

During February: DIMOCK GALLERY, Lower Lisner - SIDNEY GOODMAN.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, February 17, 1969

United States Chief Justice Earl Warren; Miss Gertrude Elion, senior research chemist and head of experimental therapy for the Wellcome Research Laboratories; and the Honorable Sterry R. Waterman, U.S. Circuit Judge, United States Court of Appeals, Second Circuit, St. Johnsbury, Vermont, will receive honorary degrees at GW's Winter Convocation, Saturday, Feb. 22, at 11:00 a.m. in Constitution Hall.

Four GW students have been selected as Woodrow Wilson Designates in the annual competition of the Woodrow Wilson National Fellowship Foundation to find "the best future college teachers on the continent." The GW winners are: Albert Lewis (economics), Washington, D.C.; David S. Fishback (political science), Silver Spring, Md.; James E. Gulotta (religion), Pottstown, Pa.; and Susan E. McGuire (history), Arlington, Va. Four other GW students received Honorable Mention: Clare Crandall (biology), Washington, D.C.; Neil M. Foran (anthropology), Milford, Conn.; William S. Mensh (history), Silver Spring, Md; and Joel S. Turett (political Science), Washington, D.C.

"Apollo 8: Debrief," a film of the historic moon flight taken by astronauts Frank Borman, James Lovell and William Anders will be shown continuously during Engineers' Week at the School of Engineering and Applied Science, Feb. 19-21. In addition to the NASA film, the program will feature tours of the Engineering School and displays from government agencies and industry. Exhibitors will include the Atomic Energy Commission, displaying "Understanding The Atom"; Eastman Kodak, "Mathematics At Work"; General Motors Research Labs, "Arts In Research"; IBM, "Uses For Computers"; the Weather Bureau, with "VHF Marine Weather Broadcasts"; and the Post Office with a display of "New Equipment for Processing Mail With Fluidics." Exhibits will be open from 9 a.m. to 4 p.m. on Feb. 19 and 21 and from 9 a.m. to 9 p.m. on Feb. 20 in Tompkins Hall.

Two recent grants received by GW:

$158,009 to GW's Social Research Group from several departments of the Federal government, including Department of Health, Education, and Welfare, Public Health Service and the National Institute of Mental Health, for a study of drinking behavior and drinking problems. This study will attempt to estimate the prevalence of a broad range of actual or potential problems related to drinking, with emphasis upon determining the frequency and presumed severity with which such problems occur. In addition, the researchers will work to provide the additional numbers required for more detailed analysis of data on problem drinking previously collected in surveys of drinking behavior by the Social Research Group.

$10,187 to GW's Social Research Group from WETA Television, Channel 26, for research evaluating a campaign conducted by the television station to find jobs for the area's unemployed. The initial campaign was televised as the "JOBS 26" series on Channel 26 last year.

GW alumnus John Chapin (MA'67) has been appointed a Special Assistant to Secretary of Housing and Urban Development George Romney (GW liberal arts student, '29-'30).

SELECTED CALENDAR EVENTS OF THE WEEK

17 Monday

GOVERNMENT CONTRACTS PROGRAM - Library, Faculty Conference Room
9 a. m. -- 4:30 p. m. (Continues through Friday)

ACADEMIC EVALUATION MEETING - Library, Faculty Conference Room,
8:45 p. m - 12 a. m.

18 Tuesday

Faculty Assembly, Lisner Auditorium, 3 p. m.
Meeting of the Graduating Class in Psychology - Monroe Hall, Rm. 104
7 - 9:30 p. m.

DISCUSSION - "Careerism in Urban Affairs" - sponsored by the
International City Managers Association. Woodhull, Rm. C, 2 - 4 p.m.

DELTA THETA PHI (Law Fraternity) - Speaker: Charles Ferris, Senate
Democratic Policy Committee. Topic: "The Lawyer in Politics"
Corcoran Hall, Rm. 100, 7:45 - 10 p. m.

INTERFRATERNITY COUNCIL - Library, Faculty Conference Room, 8:30 p.m.

OPERA - Manon Lescaut - Lisner Auditorium, 8 p. m.

19 Wednesday

INTERFAITH FORUM - Speaker: Dr. Gordon L. Lippitt. Topic: "Developing Trust in Communication." Woodhull House, Rm. C, 12 Noon

Meeting of SENATE ATHLETIC COMMITTEE - Rice Hall, Rm. 615, 3-5 p.m.

STUDENT COUNCIL MEETING - Library, Faculty Conference Room, 9 p.m.

ENGINEERS' WEEK - Tompkins Hall, 9 a.m. - 9 p.m.

20 Thursday

INTRAMURAL MEETING - Woodhull House, Rm. C, 12:15 - 1:30 p. m.

ENGINEERS' WEEK - Tompkins Hall, 9 a.m. - 9 p.m.

21 Friday

NATIONAL BALLET - Works from Repertoire. Lisner Aud., 8 p.m.
Performances of "Giselle" on 22 Saturday and 23 Sunday at 8 p.m.
with Sunday matinee at 3 p.m.

ENGINEERS' WEEK - Tompkins Hall 9 a.m. - 4 p.m.

22 Saturday

WINTER CONVOCATION (COMMENCEMENT) 11 a. m. in Constitution Hall

ACADEMIC EVALUATION MEETING - Library, Faculty Conference Room, 9 a.m.-5 pm

BASKETBALL: G.W. vs. Georgetown, Ft. Myer, 4 p.m.

23 Sunday

PAN HELLENIC COUNCIL MEETING - Rice Hall, Rm. 651, 8 p. m.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, February 24, 1969

Professor Reuben E. Wood, chairman of the Executive Committee of the University Senate, announced Tuesday at the Faculty Assembly that he had asked the chairmen of the Senate's Committees on Educational Policy and on University Objectives to set up a joint sub-committee "to study and make recommendations concerning the possibility and desirability of introducing into the curricula various subjects which are referred to as black studies." He said the sub-committee will be ready "to hear and exchange ideas with all students, faculty members, administrative officers and others who have an interest in such a project or who might be involved in its operations."

GW will participate on the GE College Bowl on NBC Television on June 1. Professor E. L. Stevens is chairman of a committee seeking suggestions for the 4-member GW team. Undergraduates under 25 are eligible.

The tenants of the Chesapeake Terrace apartment complex in Southeast Washington have enlisted the aid of the GW Black Students Union and "its bright young law student members" to aid in their case against the landlord, who refuses their claims against deficiencies in the apartments. Jack Massie, a law student and president of the Black Students Union, helped organize the Tenants Union and has been among its spokesmen.

Joseph T. English, Assistant Clinical Professor in Psychiatry, has been appointed to head the Health Services and Mental Health Administration section of the Department of Health, Education and Welfare. The GW professor's new post includes responsibility for the National Institute of Mental Health, the National Communicable Disease Center and the Office of Comprehensive Health Planning.

GW and other members of the Consortium have acquired a TWX (tele-typewriter exchange) to facilitate the exchange of library material in the U.S. and abroad. The machine, through a keyboard and telephone arrangement, can contact libraries across the country and abroad to locate books that have been requested at GW.

Alumni Leighton E. Cluff (M.D. with distinction, '49), Professor and Chairman of the Department of Medicine, University of Florida College of Medicine; and Harold A. Wheeler (B.S. with distinction, '25), Chairman of the Board of the Hazeltine Corporation, received Alumni Achievement Awards at the Winter Convocation on Feb. 22.

James E. Johnson, a former GW student, first Negro to head a department in the California state government (under Gov. Ronald Reagan), has been selected by President Nixon as a member of the U.S. Civil Service Commission. He is the first Negro member of the commission.

Harold F. Bright, Vice President for Academic Affairs, has announced that spring vacation has been changed to begin on March 29, 1969. Classes will resume on the morning of Tuesday, April 8, 1969.

The School of Medicine and the off-campus programs of the College of General Studies are excluded from this arrangement, according to Dr. Bright.

SELECTED CALENDAR EVENTS FOR THE WEEK

25 Tuesday

LEONARD TENNYSON, Director of Washington Office of European Common Market. Speech Topic: "EEC-DFTA-U.S. Relationships," Library, Faculty Conference Room, 6:10-8 p.m.

26 Wednesday

INTERFAITH FORUM - Speaker: A. E. Claeyssens, Associate Professor of English. TOPIC: "Certain Normal Predicaments of Human Divinity." Woodhull House, Rm. C, 12 Noon.

BOOKSTORE AD HOC COMMITTEE MEETING - Rice Hall, Rm. 615, 2-4 p.m.

ANTHROPOLOGY CLUB MEETING - Monroe Hall, Rm. 104, 8:30-10 p.m.

STUDENT COUNCIL MEETING - Library, Faculty Conference Room, 9 p.m.

27 Thursday

SCHOOL OF EDUCATION GRADUATE STUDENTS DISCUSSION - Woodhull House, Rm. C, 2-5 p.m.

LAW STUDENTS CIVIL RIGHTS COUNCIL MEETING - Government, Rm. 101A, 8:30-11 p.m.

28 Friday

BIOLOGY SEMINAR - Library, Faculty Conference Room, 12-2 p.m.

INTERNATIONAL STUDENTS SOCIETY - Woodhull House, Rm. C, 8:30 p.m. - 1 a.m.

1 Saturday

COLLEGE BOARD EXAMINATIONS - Monroe Hall, Rms. 103, 104; Government, Rms. 1, 101, 101A, 102, 102A; Stockton Hall, 10-30. ALL DAY.

PHI BETA KAPPA INITIATION - Library, Faculty Conference Room, 10:30 a.m. - 12:30 p.m.

INTERNATIONAL STUDENTS SOCIETY - Woodhull House, Rm. C., 7:30-10:30 p.m.

2 Sunday

PAN HELLENIC COUNCIL MEETING - Rice Hall, Rms. 615-616, 8:30 p.m. - 12 a.m.

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, March 3, 1969

A valuable engraving of George Washington receiving a salute on the field of Trenton was presented to the University by Mrs. McCook Knox of Washington on February 24.

New Presidential appointees in the Labor field will be honored at a reception at the Shoreham Hotel on March 6, during the Second Annual Labor Relations Institute, co-sponsored by the Federal Bar Association and GW. The Institute, organized to explore topics under the general theme, "Labor Policy Under a Republican Administration," will enable registrants to hear and meet many government officials, scholars and practitioners who will be influencing and shaping the new administration's labor policies. Presentations will be keyed to both the lawyer and non-lawyer working in this field. Law professor Donald P. Rothschild is co-director of the Institute.

Classes began Saturday, March 1 at GW, American University and DC Teachers' College for the "Saturday College," a tuition-free preparatory college for high school juniors and seniors. The program was instigated by Martin Pfaff, Director of the Master of Business Administration Program at American University, who took the idea from a Master's thesis. Professors for the classes include college faculty members and representatives of the professional community, who are volunteering their time to teach in the classroom. Subjects include: English, mathematics, chemistry, biology, business, civil law and the social sciences.

Mrs. Ester C. Lawton, Assistant Director of Personnel in the Treasury Department (MA'42), and Assistant Professorial Lecturer in French at GW, is one of six government career women who will receive the ninth annual Federal Woman's Award. As a winner of the award, Mrs. Lawton is recognized for high achievement in her field of personnel administration, and her outstanding contributions to the quality and efficiency of the career service of the Federal Government.

An engraving of the White House with a personal note from Mrs. Richard M. Nixon, an autographed copy of his book, Journey to Washington, by Senator Daniel K. Inouye (JD'52), lunch with Senator Mark Hatfield, a meeting with columnist Drew Pearson, and an interview with Senator Edward Muskie, are some of the "bargains" GW students will be bidding for at the annual Martha's Marathon of Birthday Bargains to be held in the Men's Gymnasium, March 7 at 8:00 p.m. Proceeds of the event will go toward the Student Council's Inner-City Scholarship Fund.

A series of four discussion-seminars concerning the possible roles for registrants of the various branches of the Armed Services will be held during March (on March 3, 10, 17 and 24) in the Informal Lounge of Thurston Hall. Topics to be discussed at the seminars, under the auspices of the Board of Chaplains, include: "Moral Considerations of A Pacifist and The Draft," "The Unconstitutionality of the Draft System," "The Conscientious Objector," "The Alternative of Jail for the Resistor," and "Service and Student Deferments."

An additional note to the change in spring vacation: classes will be held on Saturday, March 29. Students who have classes that day will be expected to remain for these classes.

The son of Ruth S. Prengel, Editorial Assistant for the PTC Research Institute, has been selected to membership in Phi Beta Kappa at GW.

SELECTED CALENDAR EVENTS FOR THE WEEK

3 Monday

MEETING OF ADMISSIONS OFFICERS - Woodhull House, Rm. C, 10 a.m. - 12:30 p.m.

SERVE SEMINAR - Mon. Hall, Rm. 101, 8-10 p.m.

ALPHA PHI OMEGA - Speaker: Yehuda Avner, First Secretary of the Israeli Embassy. Corcoran Hall, Rm. 100, 8 p.m.

4 Tuesday

MEETING OF AMERICAN STUDIES UNDERGRADUATES GROUP - Library, Fac. Conf. Rm., 8:30 p.m.

FRENCH THEATRE, "PHEDRE" - Lisner Aud., 8:30 p.m. Tickets: 393-4433.

5 Wednesday

INTERFAITH FORUM - Speaker: J.L. Tropea, Instructor in Sociology. Topic: "Morality Authority and The Social Sciences," Woodhull House, Noon.

STUDENT COUNCIL MEETING - Library, Fac. Conf. Rm., 9:00 p.m.

ALVIN AILEY DANCE COMPANY - Lisner Aud., 8:30 p.m. Tickets: 393-4433.

6 Thursday

MEETING OF STUDENTS FOR A DEMOCRATIC SOCIETY - Gov't., Rm. 1, Mon. Hall, Rm. 103, 8:30 p.m.

LAW STUDENTS CIVIL RIGHTS COUNCIL - Gov't., Rm. 101A, 8:30 p.m.

NATIONAL SYMPHONY ORCHESTRA - Lisner Aud., 2 p.m. Tickets: 628-7332.

RELIGION IN LIFE - Speaker: Charles Frankel, Professor of Philosophy at Columbia University. Topic: "Education and The Barricades," Lisner Aud., 8:30 p.m.

7 Friday

BALTIMORE SYMPHONY ORCHESTRA - Lisner Aud., 8:30 p.m.

8 Saturday

CLANCY BROTHERS AND TOMMY MAKEM - sponsored by Folklore Society, Lisner Aud., 8:30 p.m.

MODEL GOVERNMENT - Corcoran Hall, Rm. 319 (ALL Day Saturday and Sunday).

9 Sunday

"BEST OF BROADWAY" REVUE - sponsored by Zeta Phi Beta, women's alumnae group of Howard University, Lisner Aud., 7 p.m. Tickets: 882-3540

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, March 10, 1969

Judson Randolph, the surgeon who headed the five-man team that performed a rare liver transplant at Children's Hospital on March 3 is a Professor of Surgery (Pediatrics) at GW. A four-month-old Southeast Washington girl received the liver from a stillborn child in the fifth month of embryonic development during the surgery. Dr. Cecil B. Jacobson, Assistant Professor of Obstetrics and Gynecology, arranged for the entire embryo to be transported to Children's from a surburban hospital.

Vice President and Treasurer Henry Herzog has announced that the Teachers Insurance and Annuity Association of America and College Retirement Equities Fund have advised that the year-end Blue and Yellow Slips (TIAA and CREF of Premiums and Benefits) usually mailed out in March, will not be in the mail to those concerned until July or August. If any GW staff members are inconvenienced by this delay, they should consult with John Cantini in the Office of the Vice President and Treasurer, who will be pleased to assist in any way possible.

A GW alumnus, James C. Humes (AB'59, LLB'62), executive director of the Philadelphia Bar Association, has been named to the personal staff of President Richard Nixon. Mr. Humes will serve as a liaison with Congress, writing speeches and composing memoranda on domestic legislation. He had been approved as assistant secretary of commerce, but President Nixon preempted him for his personal staff.

The College on Logistics, a subdivision of the Institute of Management Sciences, will sponsor a symposium on "Logistics Planning and The City — from the present to the Year 2000" on March 17-18 at the Sheraton-Park Hotel. Roy Hermann, Visiting Professor of Management Sciences, is chairman. The program will highlight logistics problems of growing U.S. cities.

A full-page feature on Bob and Mike Tallent in the March 8 issue of The Sporting News concluded with this paragraph — "You know," said Bob, looking back, "they've got a lot more top players at the University of Kentucky, but you get to feel you're a lot more part of things at GW. It's a bigger thrill winning here — maybe because you've got to work so much harder.

William S. McCune, Clinical Professor of Surgery, was one of two outside consultants called in by Walter Reed Medical Center in connection with former President Eisenhower's intestinal ailment.

Featured on the cover of the annual Official Collegiate Baseball Guide for 1969 is GW's outstanding sophomore pitcher, Hank Bunnell, who last season compiled a 9-2 record and struck out 93 men in 76 innings. Hank will be shooting for his 14th no-hitter when he takes the mound this season.

The 5th Annual GW International Exhibit of Drawings and Sculpture opens March 11 at 5:00 p.m. in Dimock Gallery. The exhibit will continue until March 28.

SELECTED CALENDAR EVENTS FOR THE WEEK

10 Monday

FACULTY SEMINAR - Faculty Conf. Rm., 2:00 - 4:00 p.m.
DELTA NU ALPHA TRANSPORTATION FRATERNITY - Speaker: R. A. Tryce, Vice President for Traffic - Continental Trailways; Library, Fac. Conf. Rm., 8 p.m.
MODEL GOV'T COMMITTEE MEETING - Mon. Hall, Rm. 102, 8:30-9:30 p.m.

11 Tuesday

PATENT LAW SEMINAR - Faculty Conf. Rm., 9:00 a.m. - 5:30 p.m.
SERVE SEMINAR - Gov't., Rm. 1, 8:00-10:30 p.m.
INTERFRATERNITY COUNCIL - Faculty Conf. Rm., 7:30-11:00 p.m.
MEETING OF STUDENTS FOR A DEMOCRATIC SOCIETY - Gov't., Rm. 1, 8:30-11:00 p.m.

12 Wednesday

PATENT LAW SEMINAR - Faculty Conf. Rm., 9:00 a.m.-5:30 p.m.
INTERFAITH FORUM - Speaker: Prof. C.C. Mondale, Associate Professor of American Literature, Topic: "Moral Authority and the Democratic Ethos," Woodhull House, Noon.
INTERNATIONAL STUDENTS SOCIETY - Woodhull House, Rm. C, 4-5 p.m.
STUDENT PERSONNEL PROGRAM MEETING - Woodhull House, Rm. C, 6-7 p.m.
OPEN KITCHEN - Part of Woodhull House for this meeting, 6:30 p.m.
GENERAL ALUMNI ASSOCIATION - Cor. Hall, Rm. 100, 7:30-10:00 p.m.
PAN HELLENIC - Gov't., Rms. 102-102A, 8:30-10:30 p.m.
STUDENT ASSEMBLY - Library, Faculty Conf. Rm., 9 p.m.

13 Thursday

PERSONNEL ORIENTATION - Woodhull House, Rm. C, 10:00 a.m. - 12:00 p.m.
PEACE CORPS TESTING - Mon. Hall, Rm. 3, 2:00-5:30 p.m.
COLUMBIAN COLLEGE MEETING - Gov't, Rm. 1, 2:15-4:00 p.m.
RESIDENT HALL ADVISORY MEETING - Rice Hall, Rm. 615, 3:30-5:00 p.m.
RECEPTION, SCHOOL OF PUBLIC AND INTERNATIONAL AFFAIRS - Undergraduate Students and faculty Woodhull House, Rm. C, 4:00-6:00 p.m.
PURCHASING INSTITUTE - Faculty Conf. Rm., 6:30-10:00 p.m.
PSI-CHI - PSYCHOLOGY HONOR SOCIETY - Mon. Hall, Rm. 101, 8:30-11:00 p.m.
CONCERT (FACULTY SERIES), MUSIC DEPARTMENT - Lisner Aud., 8:30 p.m.
MEETING OF STUDENTS FOR A DEMOCRATIC SOCIETY - Mon. Hall, Rm. 103, 8:30-11:00 p.m.
STUDENT ASSEMBLY - Elections for Center Board, Gov't., Rm. 1, 9:00-10:30 p.m.
LAW STUDENTS CIVIL RIGHTS COUNCIL - Mon. Hall, Rm. 12, 7:30-10:30 p.m.

14 Friday

PEACE CORPS TESTING - Mon. Hall, Rm. 2A, 2:00-6:00 p.m.
BIOLOGY SEMINAR - Library, Fac. Conf. Rm., 12:00-2:00 p.m.
UNIVERSITY SENATE MEETING - Library, Fac. Conf. Rm., 2:10 p.m.
MEDICAL SCHOOL FOLLIES PRACTICE - Woodhull House, Rm. C, 7:00-9:00 p.m.
INTERNATIONAL NIGHT - Sponsored by the International Students Society, Lisner Aud., 8:30 p.m.

15 Saturday

PEACE CORPS TESTING - Mon. Hall, Rm. 4, 10:00 a.m.-12:00 p.m.
INTERNATIONAL STUDENTS SOCIETY PARTY - Woodhull House, Rm. C., 10:30 p.m.-12:00 a.m.

16 Sunday

PAN HELLENIC MEETING - Rice Hall, Rms. 615-616, 8:30 p.m.-12:00 a.m.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, March 24, 1969

Carl J. Lange has been appointed Assistant Vice President for Research at GW, effective April 7. The new position combines directorship of the GW Educational Resources Information Center Clearing House on Higher Education, and administration of the university's Office of Sponsored Research. Mr. Lange, an experimental psychologist, is currently Assistant Director for Planning at the Human Resources Research Office.

A GW pediatrics professor, Dr. Leon Cytryn, reports that the incidence of mental retardation, which afflicts six million Americans could be cut in half by massive spending to eliminate the conditions of poverty. Dr. Cytryn cited estimates that 75 to 80 per cent of the Nation's retarded come from impoverished backgrounds, without obvious brain damage or organic defects to cause their condition. He noted poor diets and inadequate prenatal care for deprived mothers, and malnutrition and lack of stimulation for infants and toddlers as factors leading to retardation.

Henry W. Herzog, Vice President and Treasurer, has been elected a director of the $280 million Washington Mutual Investors Fund.

Harry S. Dent, LLB'57, has been appointed deputy counsel to President Nixon.

GW's Arthritis Research Program has received substantial support through a bequest of $46,850 from the estate of a Washington resident, Ruth M. Betts. Dr. Thomas M. Brown, Director of Rheumatology and Rehabilitation Medicine, indicated that these funds will be used "to support on-going research related to the cause of rheumoid disease, new methods for precise measurement of the type and degree of involvement of the patient, and comparison of results of treatment."

Max Farrington, Assistant to the President for Special Projects, has been elected President of the Washington-Baltimore Chapter of the National Society of Fund Raisers. This chapter is made up of some 60 professional fund raisers who direct major financial campaigns in the Washington-Baltimore area.

An Urban Affairs Program, designed for undergraduates wishing to take courses which will broaden their understanding of urban problems, contemporary urban issues and the political and social processes underlying trends and conditions in cities, has been established by the School of Public and International Affairs. It will be offered for the first time during the Fall semester.

Courses for the Urban Affairs Program will be selected from all available and applicable undergraduate offerings in the University, and may include the disciplines of political science, sociology, economics, history, geography, business administration, education and others.

"The Supreme Court," a 10-part television series produced by the Office of Public Relations, will be aired in Washington, on WRC-TV, Channel 4, beginning March 31 at 6:30 a.m. Several GW law professors and alumni are participants in the series.

25 Tuesday

UNIVERSITY SENATE RELATIONS COMMITTEE MEETING - Library, Fac. Conf. Rm., 8-10 p.m.

INTRAMURAL MEETING - Woodhull House, Rm. C, Noon.

AIESEC (International Assoc. of Students in Business and Economics) - Monroe Hall, Rm. 102, 8-9:30 p.m.

STUDENTS FOR A DEMOCRATIC SOCIETY MEETING - Gov. 1, 8-10 p.m.

26 Wedneseay

INTERFAITH FORUM - Speaker: Professor Franz Michael. Topic: "The Crisis in Communist China." Woodhull House, Rm. C, Noon.

UNIVERSITY SENATE COMMITTEE MEETING - Rice 615, 616, 2;30-5 p.m.

STUDENT COUNCIL MEETING - Library, Fac. Conf. Rm., 9 p.m.

ANTHROPOLOGY CLUB - Cor. Hall, Rm. 103, 8-10 p.m.

SERVE SEMINAR - Gov. 101A, 8-10 p.m.

NATIONAL BALLET - Special Benefit Performance, "La Sylphide," Lisner Aud., 8:30 p.m.

27 Thursday

LAW STUDENTS CIVIL RIGHTS RESEARCH COUNCIL - Mon. Hall, Rm. 1A, 7-10 p.m.

28 Friday

BIOLOGY SEMINAR - Library, Fac. Conf. Rm., 12-2 p.m.

MECHANICAL CONTRACTORS RECEPTION - Library, Fac. Conf. Rm., 6-9 p.m.

HIGH SCHOOL DEBATES - All day Friday and Saturday. Cor. Hall, Stuart Hall, Gov., Library, Monroe Hall, Tompkins Hall, Stockton Hall, and Lisner Aud.

NATIONAL BALLET - Lisner Aud., 8:30 p.m. (Saturday, 8:30 p.m., and Sunday Matinee, 3 p.m.)

29 Saturday

CUEBS MEETING - Library, Rms. 401, 402, 9-5 p.m. (Sunday, Stuart, Rms. 202, 232; Library, Rms. 401, 202, 9-5 p.m.)

30 Sunday

ISRAELI VARIETY SHOW - Lisner Aud., 8:00 p.m.

PAN HELLENIC MEETING - Rice Hall, Rms. 615, 616, 8:30-12 p.m.

DIMOCK GALLERY - The Elaine Adrienne-Gates Composite Paintings Exhibition of Serigraphs. Opening, April 1st.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Published by the Office of Public Relations. Editor, Betsy Ott.

Monday, April 14, 1969

George Washington has received a $163,000 grant from the Ford Foundation for the development and application of new techniques for planning, programming, and budgeting throughout the University.

A Ford Foundation announcement dated April 9 noted that George Washington and the Massachusetts Institute of Technology were being awarded such grants, which are intended to improve the management and allocation of resources in higher education.

Budget Director William D. Johnson said the GW grant will make possible programming and budgeting procedures which "should result in more effective and more efficient utilization of the University's resources."

The first step, he said, will be an in-depth analysis of the current allocation of financial resources to educational and other programs, and of the relevance of these programs to the objectives of the University and its schools and colleges.

Under the new system, department chairmen, deans, and other administrative officers will, in determining their priorities and emphases, focus attention on the relationship of their programs and objectives to those of the total university. By developing and exploring alternative means of achieving the desired objectives, better coordination of programs, purposes, and resources within the total University is anticipated, according to Mr. Johnson.

Techniques of "program budgeting" were originally and successfully developed and applied in the Department of Defense. The new program at George Washington will draw upon these techniques.

The University began the conversion of its present budget system to "program budgeting" two years ago with the development of a four-year budget cycle. With the Ford grant, the additional research and ground work for the new system should be completed within two years instead of four, as originally projected.

Mr. Johnson and Harold F. Bright, Vice President for Academic Affairs, will guide the work. Guy Black, Associate Professor of Business Economics, will serve as the senior economist and systems analyst.

GW's Department of Economics is presently studying the comprehensive planning for water resources management in metropolitan environments, under a $48,697 grant issued by the Department of the Interior. Included in the study will be an analysis of the efficiency of the current allocation of water resources in the Washington Metropolitan environment and the influence of institutions on the decision-making which results in this allocation.

George V. Allen, Ambassador in Residence at GW this semester, will present a series of three lectures on "New Perspectives in Foreign Policy," beginning on Thursday, April 24 at 8:00 p.m. in Corcoran Hall, Rm. 100. The other two lectures will be presented on May 1 and May 8.

SELECTED CALENDAR EVENTS OF THE WEEK

14 Monday

GOVERNMENT CONTRACTS PROGRAM - Library, Fac. Conf. Rm., 9 a.m.-4:30 p.m.

COMMISSION ON MODEL GOVERNMENT - Rice, Rm. 615, 8-10 p.m.

15 Tuesday

RUSSIAN CLUB - Woodhull C, 8-12 p.m.

INTER-FRATERNITY COUNCIL - Library, Fac. Conf. Rm., 8:30-12 p.m.

BALTIMORE SYMPHONY with PEABODY CHORUS - Lisner Aud., 8:30 p.m.

16 Wednesday

INTER-FAITH FORUM - Speaker: Thelma Lavine, Professor of Philosophy. Woodhull, 12 Noon.

STILLMAN COLLEGE DINNER - Library, Fac. Conf. Rm., 9 p.m.

YOUNG REPUBLICANS - Woodhull C, 8-10 p.m.

FRENCH THEATRE - Lisner Aud., 8:30 p.m.

17 Thursday

EASTER EGG HUNT - sponsored by Alpha Phi Omega, rear of Library, 1·30-2:30 p.m.

ENGLISH FACULTY MEETING - Monroe 104, 2-4 p.m.

PTC RESEARCH INSTITUTE INVENTOR-OF-THE-YEAR RECEPTION. Shoreham Hotel, 4-6 p.m.

LAW STUDENTS CIVIL RIGHTS RESEARCH COUNCIL - Monroe 1A, 7:30-10 p.m.

PHI DELTA EPSILON LECTURE - Speaker: Adrian Kantrowiz, Cardiac Surgeon, N.Y. School of Medicine, 5 p.m.

UNIVERSITY CONCERT - (faculty series) Lisner Aud., 8:30 p.m.

18 Friday

HEARING COMMITTEE ON STUDENT AFFAIRS - Rice 615-616, 3-7 p.m.

19 Saturday

CHERRY BLOSSOM ART FESTIVAL - University Yard, 1-7 p.m.

HIGH SCHOOL FRENCH CONTEST - Monroe Hall, 9 a.m.-1 p.m.

MUSIC FOR MARLBORO - Lisner Aud., 3 p.m.

NEW CINEMA - Short Foreign Films, Lisner Aud., 8:30 p.m.

20 Sunday

INTERNATIONAL STUDENT SOCIETY DINNER - 7 p.m.

PAN-HELLENIC - Rice 615-616, 8:30-12 a.m.

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, April 21, 1969

Dr. John H. Knowles, General Director of Massachusetts General Hospital, will be the principal speaker at the dedication ceremonies of the University Clinic on Sunday, April 27, at 2:00 p.m. in Lisner Auditorium. Dr. Knowles has written extensively on the economic and social problems of medicine.

The application of the humanities to urban problems, particularly those of the Washington area, will be the thrust of three new experimental courses to be offered next year at GW. The University, along with four other institutions, has received a planning grant from the National Endowment for the Humanities for the purpose of relating classroom teaching in the humanities to the Urban scene.

The purpose of the planning grant is to jog humanists into concern for the humanities as applied to the community today, according to the director of the GW Humanities Project, Clarence C. Mondale. "While the concerns of the humanities may be considered perennial," Professor Mondale said, "meaning and value must be perpetually rediscovered, as conditions change."

The humanities include such subjects as history, philosophy, literature, jurisprudence, languages, linguistics, and those aspects of the social sciences which have humane content and employ humanistic methods.

The planning grant, the first of its kind to be issued by the National Endowment for the Humanities, will aid the University in planning the three experimental courses. Two of the courses will be offered in sequence at the sophomore level during the fall and spring semester.

The fall course, "Individuality in the Urban Community," will explore individuality in the American past and present, as revealed in the arts, in literature, and in the social sciences. The second course will be offered in the spring under the title, "Urban Goals and Agents of Change." In this course, students will study the meaning of community under urban conditions, in the American past and present; of goals for the "good" community; and of agencies of change. Both of these courses carry three hours of credit.

The third course, labeled "work-study" will enable students to earn credit for work with community agencies that deal with urban problems. This course will be offered in the spring of 1970. Field study will be supervised by appropriate faculty members.

Other colleges receiving similar planning grants in the humanities are Boston University, Hampshire College, Hiram College and Manhattanville College.

Students, faculty members and administrators are reminded that during National Library Week, April 20 to 26, the University Library will remove all fines from books that are returned on any of the above days. Fines accumulated on lost books which are paid for during this week will be w ved, but the service charge and the cost of the book will be collected as usual. This agreement does not apply to loan from the University Library Reserve Desk, the Law or the Medical libraries.

SELECTED CALENDAR EVENTS FOR THE WEEK

21 Monday

SERVE SEMINAR - Cor., Rm. 103, 8 p.m.

22 Tuesday

STUDENT ORIENTATION TASK FORCE MEETING - Mon. 101, 8:30-11 p.m.

DISTINGUISHED SPEAKER SERIES - Speaker: Don Luce. Topic: "Aspects on non-Communist Opposition to the Saigon Government" and "Post-War Reconstruction." Corcoran, Rm 100, 8-10:30 p.m.

GERMAN OUTING CLUB - Mon., 204, 8-10 p.m.

INTERNATIONAL STUDENTS SOCIETY LECTURE - Speaker: Elias P. Demetrocopoulos. Topic: "Greece-A New Vietnam Query." Cor., Rm 100, 7:00 p.m.

23 Wednesday

INTERFAITH FORUM - Speaker: Alex Rode, Special Research Fellow in Clinical Psychology. Topic: "The Birth of God." Woodhull C, 12 Noon.

24 Thursday

LECTURE SERIES - "New Perspectives in Foreign Policy." Speaker: The Hon. George V. Allen, Ambassador in Residence. Cor. Hall, 100, 8 p.m.

ACADEMIC COMMITTEE MEETING - Gov. 11, 9 p,m.-12 a.m.

LAW STUDENTS CIVIL RIGHTS RESEARCH COUNCIL - Mon. 1A, 7:30-10 p.m.

RUSSIAN LECTURE - Speaker: Stephen Stein, young Polish historian who fled from Poland. Bldg. GG, 8:00 p.m. Sponsored by National Slavic Honor Society.

UNIVERSITY CONCERT (faculty) - Lisner Aud., 8:30 p.m.

"WASHINGTON AT WORK - WRC-TV, Channel 4 - 1:00 a.m. Public Affairs Television Program produced by GW Office of Public Relations.

25 Friday

BIOLOGY SEMINAR - Fac. Conf. Rm., 12 noon-12 midnight

DANCE DEPARTMENT SPRING CONCERT - Lisner Aud., 8:30 p.m. (Also on Sat. 26, 8:30 p.m.)

26 Saturday

BIOLOGY DEPARTMENT - Day of Dialogue - Library, Fac. Conf. Rm., 10 a.m.-1 p.m.

URBAN PLANNING CONSORTIUM - Gov. 101-101A, 9 a.m.-All Day.

PIANO RECITAL - Raymond Leventhal, Lisner Aud., 3 p.m.

27 Sunday

DEDICATION CEREMONIES - George Washington University Clinic, Lisner Aud., 2 p.m.

GUITARIST - Carlos Montoya, Lisner Aud., 7:30 p.m.

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, April 28, 1969

The following is the resolution passed by the GW faculty at an emergency meeting on April 24, 1969:

Whereas the Sino-Soviet Institute building of The George Washington University, Maury Hall, was occupied forcibly on the night of April 23-24 by students of the Students for Democratic Society and other persons, and

Whereas the forcible occupation caused injury and grave threat of injury to students and faculty, and

Whereas the persons occupying the building damaged the building and its furnishings, and destroyed and interrupted the work of the Faculty whose offices are located in the building, and

Whereas the forcible occupation of other buildings on the campus has been expressly threatened, and

Whereas the University cannot meet force with force by its own police, and is unwilling to permit violence by students and non-students fighting other students and non-students, therefore

(1) The Faculty of the George Washington University endorses University Senate Resolution #68/2.

(2) The Faculty approves the sensitive and effective handling of the occupation and evacuation of Maury Hall on the night of April 23-24.

(3) The Faculty expresses its confidence in the ability of the President and other appropriate university officials to meet any similar crisis in the future within the guidelines of Resolution #68/2.

(4) The Faculty urges the President to call upon the civil authorities to intervene in campus matters only as a last resort.

(5) The Faculty commends the students who contributed in an effective and responsive manner to the prevention of violence at the University.

"Police Policy, Practices, and Attitudes," and "Resolved That There Should Be Community Controls Over Police Forces," are topics that two panel groups will consider at the 1969 Conference on Urban Affairs sponsored by GW's National Law Center, on May 1. The Conference, first begun at GW in 1966, is organized primarily by students to highlight a critical problem of the present urban society. It will be held at the Law Center, 720 20th Street, N.W., beginning at 9:30 a.m.

The 1969 Membership Show of the Society of Washington Printmakers will be exhibited at GW beginning May 6. The show will continue through May 29 in the Dimock Room, Lisner Auditorium. The combination show and sale will exhibit 55 prints including "Tenth Memory" by Miss June Wayne, of Los Angeles. Miss Wayne gained national attention when she formed the Tamarind Lithography Workshop to encourage the training of lithography as an art medium.

SELECTED CALENDAR EVENTS FOR THE WEEK

28 Monday

GW PHILOSOPHY CLUB MEETING - Speaker: Dr. William Long, Assistant Dean of Graduate School. Topic: "An Economist Looks at a Philosopher Looking at Technostructure." Alumni Lounge, Bacon Hall, 3:30 p.m.

NORMAN WALKER DANCE CO. - Sponsored by the Wash. Performing Arts Society, Lisner, 8:30 p.m.

ORDER OF SCARLET MEETING - Mon. 100, 8-10 p.m. (also Tuesday at the same time)

STUDENT PLACEMENT INTERVIEWS - Woodhull C, 11 a.m. - 4 p.m.

INSTALLATION DINNER FOR CENTER BOARD - Fac. Conf. Rm., 5:30 p.m. - 12 a.m.

SEMINAR - COLLOQUIA - Speaker: Prof. Manfred Halpern, Program of Near Eastern Studies, Princeton Univ. Topic: "A Theoretical Framewrok for the Comparative Study of Modernization in the Middle East." Conf. Rm., 30, Institute for Sino-Soviet Studies, 2-4 p.m.

SEMINAR-SCHOOL OF ENGINEERING - "New Interfaces Between Industry, Gov't and the Academic Community for the Technologican & Sociological Orientation of Responsive, Creative & Adaptive Systems Managers." The Kennedy-Warren Hotel Ballroom, 9 a.m. - 6 p.m.

29 Tuesday

YOUNG DEMOCRATS MEETING - Mon. 104, 7:30 - 8:30 p.m.

30 Wednesday

INTERFAITH FORUM - Speaker: Robert N. Ganz, Assoc. Prof of Amer. Lit. Topic: "Poetry and Belief." Woodhull House, 12 noon.

ECONOMICS FACULTY SEMINAR - Gov. 102 A, 2-4 p.m.

INTER-FRATERNITY COUNCIL - Gov. 101 A, 8:30 - 11 p.m.

NATIONAL ACADEMY SCIENCE LECTURE - Cor. 100, 7:30 - 10 p.m.

STUDENT ASSEMBLY MEETING - Fac. Conf. Rm., 9 p.m.

1 Thursday

LAW DAY USA
SCHOOL OF EDUCATION FACULTY MEETING - Fac. Conf. Rm., 9 a.m. - 1 p.m. and 3 - 5 p.m.
INTRAMURAL SPORTS - Woodhull House C, 12:15 - 1:30 p.m.
SIGMA DELTA PI INITIATION - Woodhull House C, 7:30 - 11 p.m.
POLITICAL SCIENCE MAJORS MEETING - Mon. 103, 5:30 - 8 p.m.

2 Friday

SMITH REED RUSSEL LECTURE - Speaker: Dr. H. Jack Geiger, Prof. of Prevention Medicine, Tufts Medical School; Director of the Tufts-Mississippi Program. School of Med., Hall A, 5 p.m.
POP CONCERT - Sponsored by Society for New Arts Presentations. Tickets available at Stud. Union.

3 Saturday

GW CHILDREN'S THEATRE - "Rings & Things & Circus Clowns," Lisner, 11:30 a.m. and 1:30 p.m.
FRENCH THEATRE - "L'Exchange," Lisner, 8:30 p.m.
COLLEGE BOARDS - All day. Mon. 103, 104; Gov. 1, 101, 101 A, 102, 102 A; Stockton 10, 30.
BIG SIS MEETING - Gov. 2 & 3, 10 a.m. - 12 noon.

4 Sunday

CHAPLAINS BOARD TEA - Woodhull House C, 3-5 p.m.
PAN HELLENIC - Rice 615-616, 8:30 p.m. - 12.

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, May 5, 1969

The official announcement was made Friday, May 2, at the regular meeting of the Southern Conference, that GW will leave the Conference on June 30, 1970. Dr. Perros, GW's faculty representative to the Southern Conference, expressed, on behalf of President Elliott, the University's "complete satisfaction with," and "great appreciation for," the "fine relationship" George Washington has had with member institutions in the Southern Conference during the 28 years GW has been in the Conference. The University Senate and Student Assembly had both requested that the University terminate its relationship with the Southern Conference. These groups believe that GW independence will enable the University to play more games in large northern and midwestern cities in which GW alumni and students are concentrated.

Burton M. Sapin, currently professor of political science at the University of Minnesota and Nimitz Professor at the U.S. Naval War College, Newport, R.I., has been appointed Dean of GW's School of Public and International Affairs. Mr. Sapin will succeed Dean Hiram M. Stout, who desires to return to full-time teaching at GW.

An authority on United States foreign policy, Mr. Sapin has served on the faculty of North Carolina State, Princeton University, Vanderbilt University, Massachusetts Institute of Technology and Johns Hopkins University. He worked in the State Department from 1961-1965, first as a Foreign Affairs Officer, and then, as a member of a three-man policy planning staff for the Deputy Assistant Secretary of State for Personnel.

Mr. Sapin has written extensively in the field of U.S. foreign policy and will have his latest book, Contemporary American Foreign and Military Policy, published in the fall.

He received an A.B. and A.M. from Columbia University in 1945 and 1947, respectively, and a Ph.D. in 1953 from Princeton.

Judge Catherine B. Kelly of the District of Columbia Court of Appeals (GW, JD'51), has been named the "woman lawyer of the year" by the Women's Bar Association of the District. Judge Kelly served as an associate judge of the municipal court under President Eisenhower, and was later appointed as associate judge of the District Court of Appeals by President Johnson.

GW is presently engaged in a project funded by a $68,500 grant from the Ford Foundation aimed at developing a greater first-hand understanding of educational practices and problems for those persons who formulate Federal education legislation. This will be done by bringing these individuals (representatives from the legislative offices of the Department of Health, Education and Welfare, the Office of Education and the Bureau of the Budget) into closer contact with educators, students and citizen groups in the field. Traveling seminars will involve these representatives in visits to schools, computer programs, and poverty projects both in the inner city and Appalachia. Director of the projects is Samuel Halperin.

SELECTED CALENDAR EVENTS OF THE WEEK

5 Monday

"George Calling" Telethon - part of University's Annual Support Program. Woodhull House, 7 p.m.

ALPHA PHI OMEGA MEETING - Cor. 100, 8-11 p.m. (Also Tues., Wed., same time)

DISTINGUISHED SPEAKER SERIES - Speaker: Muhammad Ali. Lisner Aud., 4 p.m.

6 Tuesday

SERVE SEMINAR - Mon. 4, 8:30-9:30 p.m.

MEMBERSHIP SHOW OF SOCIETY OF WASHINGTON PRINTMAKERS - Dimock Gallery, Lisner Aud., (through May 29)

7 Wednesday

STUDENT ASSEMBLY MEETING - Fac. Conf. Rm., 9 p.m.

PSI CHI MEETING (Psychology Fraternity) - Mon. 100, 8-11 p.m.

GW CHORUS SPRING CONCERT - Lisner Aud., 8:30 p.m.

8 Thursday

GW-FEDERAL BAR ASSOCIATION ANNUAL INSTITUTE ON GOVERNMENT CONTRACTS - Hotel America (Also on May 9)

ORIENTATION MEETING - Woodhull House, 10 a.m.

UNIVERSITY SENATE COMMITTEE MEETING (Committee on Faculty Facilities in the New University Center, David Weaver, Chairman) - Rice 615-616, 3:30-5 p.m.

CAMPUS FORUM OF GWU - sponsored by Alpha Kappa Psi Professional Business Fraternity. Theme: "The Social Responsibility of Management." Lisner Aud., 7-10 p.m.

DEPARTMENT OF BUSINESS ADMINISTRATION PROGRAM - Lisner Aud., 7-11 p.m.

DISTINGUISHED SPEAKERS SERIES - Speaker: George V. Allen, Ambassador-in-Residence. Topic: "New Perspectives in Foreign Policy." Cor., 100, 8 p.m.

9 Friday

BIOLOGY SEMINAR - Fac. Conf. Rm., 12-2 p.m.

11 Sunday

PAN-HELLENIC - Rice 615-616, 8:30 p.m.-12 a.m.

CGS-GWU BUSINESS EXECUTIVES PROGRAM - Airlie House (through May 16)

THE MONDAY REPORT

The George Washington University

--A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, May 12, 1969

Six faculty and staff members will be honored by the General Alumni Association at its annual awards dinner on May 17. The awards recognize those who are observing 25 and 40 year anniversaries as members of the faculty. To be honored with 25-year awards are: James J. Feffer, Associate Dean of The Medical Center and Professor of Medicine; Leon Gerber, Clinical Instructor in Surgery; Caroline Jackson, Assistant Clinical Professor of Obstetrics and Gynecology; and Muriel Hope McClanahan, Associate Professor of Neurology. C. Max Farrington, Assistant to the President for Special Projects, will be recognized for 40 years of service. In addition, seven GW alumni will receive Alumni Service Awards for service to the University through leadership in its alumni activities. They are: L. Jackson Embrey, past president of the General Alumni Association; Charles E. Bish, Education; Jerome Epstein, Medical; Philbrick McCoy, Los Angeles Alumni; Jack Morton, Columbian College; William F. Ryan, Jr., Colonials; and Emilie Margaret White, Columbian Women.

The University Player's production of As You Like It has been chosen as the presentation of the Summer Shakespeare Festival at the Sylvan Theatre for this summer. Included in the production will be the original score, written by Cary Engleberg, a GW junior in pre-med. Casting will be open to both GW students and members of the community. The Play will run for six-and-a-half weeks, six evenings a week, and will be directed by David H. Kieserman, Assistant Professor of Drama.

Dr. T. Crandall Alford, Associate Professor of Surgery, has announced research results which complete another step toward a diagnostic test for cancer, and perhaps presage new ways of controlling the disease. Dr. Alford bases his hope on new findings about antigens--substances that reside on the outer surfaces of human cells and which trigger the cells' immunological responses to a "foreign invader. It is this mechanism that is responsible for the body's rejection of a transplanted organ.

Work which Dr. Alford and his colleagues have performed indicate that the cancer cells themselves contain antigens which trigger immunological responses. A long term hope, says Dr. Alford, would be to thwart the antigen system, break down the cancer cell's defensive mechanism and open the avenue to drug therapy. A more immediate application, he indicates, would be to detect the presence of cancer at an early stage by challenging suspected cancerous tissue and eliciting an immune response.

Dr. Alford reported the results of this research with Dr. Ariel C. Hollinshead, Associate Research Professor of Medicine, before science writers at the American Cancer Society Science Writers Seminar in March and April.

The Biological Sciences Communication Project has received a $137, 118 grant to study the resources and major subject area holdings available in U.S. federal libraries. Directed by Dr. C. W. Shilling, the study will identify the major collections in the federal libraries and try to determine the scope, coverage, types of materials, the availability, permanence and currency of these collections.

SELECTED CALENDAR EVENTS OF THE WEEK

12 Monday

"George Calling" Telethon - part of University's Annual Support Program. Woodhull House, 7-9 p.m. (through Thursday)

GOVERNMENT CONTRACTS PROGRAM - Fac. Conf. Rm., 9 a.m.-4:30 p.m. (through Wednesday)

UNIVERSITY COMMUTER ASSOCIATION - Stuart 201, 4-6 p.m.

SEMINAR-COLLOQUIA - Speakers: Professor Joseph Aschheim, GW department of Economics, and Mr. F. Lundy, Department of State. Topic: "Economic Development in the Middle East: The Impact of the Oil Industry." Sponsored by School of Public and International Affairs, Institute for Sino-Soviet Studies, Conference Rm. 30, 2-4 p.m.

13 Tuesday

UNIVERSITY CONCERT (faculty) - Lisner Aud., 8:30 p.m.

MEETING OF ENGLISH MAJORS - Gov. 1, 12:30-3 p.m.

TRY-OUTS FOR STUDENT SPEAKER FOR COMMENCEMENT - Cor. 100, 7-9:30 p.m.

DISTINGUISHED SPEAKERS SERIES - Speaker: Allard K. Lowenstein, U.S. Representative from New York. Topic: "The Future of the Democratic Party." Lisner Aud., 4 p.m.

PHILOSOPHY DEPARTMENT COLLOQUIUM - Speaker: Richard Schlagel. Topic: "Contextualistic Realism," Bacon Hall, 4:00 p.m.

14 Wednesday

STUDENT ASSEMBLY - Fac. Conf. Rm., 9 p.m.

15 Thursday

STUDENT ORIENTATION TASK FORCE MEETING - Mon. 204, 8-10 p.m.

RECEPTION - Faculty Urban Regional Planning, Fac. Conf. Rm., 3-7 p.m.

MASS FOR ASCENSION THURSDAY - Lower Lisner, 12:10 p.m. and 5:00 p.m.

16 Friday

HEARING COMMITTEE ON STUDENT AFFAIRS - Rice 615-616, 3-5 p.m.

17 Saturday

PHI BETA KAPPA INITIATION - Fac. Conf. Rm., 10:30-12:30 p.m.

18 Sunday

PAN-HELLENIC - Rice 615-616, 8:30-midnight.

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, July 14, 1969

A newly established GW Institute for Management Science and Engineering will define and develop new management techniques necessary to keep pace with expanding technology. Closely related to academic programs in operations research (Engineering Administration Department) and computer sciences and engineering (Electrical Engineering Department), the Institute will:

--Work closely with GW's Program of Policy Studies in Science and Technology in the application of developing technologies to social problem areas, under a NASA grant.

--Seek other funded projects concerned with applying new technologies to contemporary problems.

--Establish a program in logistics and related areas, drawing upon appropriate educational and research elements of GW's Logistics Research Project, which has gone out of existence. (Resource allocation problems in both civil affairs and national defense will be studied under this program, which has support from the Office of Naval Research.)

--Create a multidisciplinary environment for "innovative graduate teaching and increased opportunities for research and public service" (drawing upon GW faculty members in mathematics, economics, statistics, systems analysis, and computer science as well as "distinguished visitors" from private industry and other universities).

It is the only Institute of its kind in the Washington area.

W.H. Marlow has been appointed director of the Institute and professor of applied science in the Department of Engineering Administration. A specialist in operations research and management science, he has been principal investigator for GW's Logistics Research Project and professorial lecturer in mathematics.

Funded projects in operations research and management sciences--the principal academic fields in which the Institute will be involved--will make possible the appointment of about nine new faculty members and some 13 doctoral candidates as research assistants, primarily in the departments of Engineering Administration and Electrical Engineering in the School of Engineering and Applied Science.

In the teaching and research functions of the Institute, there is expected to be "full-time interaction" among students, faculty and staff. The Institute will disseminate its results through seminars, colloquia, and conferences. Special series of monographs are also planned. None of the research will be classified. (See attached statement on the Institute for Management Science and Engineering.)

Persons involved in the evaluation of evidence and its introduction into courts of law will be able to extend and broaden their scientific and legal knowledge through a new master's degree program that leads to a Master of Science degree in Forensic Science. Forensic Science is concerned basically with the application of scientific disciplines to the administration of justice. The GW program, to be offered beginning this fall semester, is interdisciplinary, with emphasis on science and law. (Continued on back side)

GW PROGRAM WILL STRENGTHEN ADMINISTRATION OF JUSTICE (Continued)

According to Arthur E. Burns, Dean of the Graduate School, "scientific advances and developments in the admissability of evidence, particularly within the past five years, have made it increasingly evident that an academic program in forensic science is needed." It is an innovative program, the first of its kind to be offered in the Washington area, and substantially different from any other program in the country. A bachelor's degree in the biological, engineering, or physical sciences, mathematics, or the equivalent, is required for admission.

An innovative program funded by the U.S. Department of Housing and Urban Development and supervised by GW, Howard, and Catholic Universities in cooperation with the District of Columbia, the National Capital Planning Commission and the Washington Metropolitan Council of Governments, will provide professional education and work experience for members of minority groups interested in careers in urban planning and related fields.

The object of the program is to increase the availability of minority group members in the field of urban planning and related professions, as well as to provide government agencies with needed professional urban specialists.

The comprehensive program, which will lead to a Master's degree in urban planning, will include field-service projects involving direct participation with neighborhood groups in ghetto areas. Each work-study assignment will deal, in some way, with the needs of the ghetto community and will focus on planning for alleviation of problems encountered there.

Although the program in the Washington area will emphasize the graduate level of study in its first year, it is anticipated that in later years undergraduates at the three institutions and qualified high school students will become involved. At the current level of HUD funding, nine students will enter the course--three at each university. Additional information may be obtained from Dorn C. McGrath, Chairman, Department of Urban and Regional Planning at GW.

A nationally recognized medical educator assumed the chairmanship of the Department of Medicine in the GW Medical Center on July 1. Dr. Wallace N. Jensen succeeded Dr. Thomas McPherson Brown, who will continue as Eugene Meyer Professor of Medicine and focus his major efforts in arthritis and rheumatoid diseases. Dr. Jensen previously was Professor of Medicine and Vice Chairman of the Department of Medicine at Ohio State University. His major research contributions have been in diseases of the blood.

Clarence A. Lowe, a 22-year veteran of the U.S. Public Health Service, has been named Associate Dean for Research of GW's Medical Center. The post encompasses responsibility for programs of research and training, liaison with funding agencies, and assistance to the medical faculty in reviewing individual and departmental research efforts. He will also represent the Medical Center in research programs conducted by GW faculty members working in University-affiliated institutions.

The Institute for Management Science and Engineering

The Institute for Management Science and Engineering was created to define and develop new management techniques required to keep pace with our ever-expanding technology. At the School of Engineering and Applied Science of The George Washington University, the Institute will provide a multidisciplinary environment for innovative graduate teaching and increased opportunities for research activities and public service. Initially, about 9 new faculty appointments and 13 teaching and research assistantships will be available in the Institute.

Management science and management engineering have for some time been emerging as new and exciting multidisciplinary endeavors. Traditional disciplines such as mathematics, economics, and statistics have figured prominently in these efforts as have newer fields such as operations research, systems analysis, systems engineering, and the computer sciences. The broad scope of the involved disciplines attests to the significance of management science and engineering for education, research, and public service.

In coordination with the Program of Policy Studies in Science and Technology, the Institute has initiated a program, primarily with NASA support, which will place major emphasis upon the development of an analytical research capability in the following areas of inquiry:

organizational design for new technological program, and ways in which new technologies can be applied to the solution of social problems;

the process of technological innovation;

the interrelationship of government-supported research and development and R&D activities in the private sector; and

methods of assessing the benefits and detriments resulting from technological applications; the assessment of existing and prospective technological applications and their technological, economic and social impacts.

This research will play an increasingly important role in the expanding educational and public-service involvement of the School of Engineering and Applied Science.

Elements of the reorganized and restructured Logistics Research Project are being transferred to the Institute as the Foundation of a new unclassified program in logistics. This will enable the Institute to perform research leading to the development of a science of logistics featuring principles and methodology for resource allocation problems

-more-

in civil affairs and national defense efforts. The fundamental character of this type of research should make useful results available for the resolution of diverse problems arising in private and government contexts. The principal academic fields directly involved will be operations research and management science. Initial areas for major concentration of logistics research will be inventory systems, systems performance measurements, dynamic scheduling systems for transportation planning, cost estimation for ship construction, and general problem solving computer programs.

The research guidelines for the Institute for Management Science and Engineering are wholly and specifically in accord with the new University policy on sponsored research. This policy recognizes obligations of citizenship and states willingness to engage in public-service research whenever:

(a) there is a clearly demonstrated need;
(b) the University is the best-fitted institution; and
(c) the research itself is compatible with the nature and purposes of the University.

The programs of the Institute will be concerned with important educational and public-service needs for conservation of national resources. The programs will require full-time interaction between students, faculty and staff in ways possible only at universities. All these programs will follow the new policy guidelines to ensure that needs will be served both for the University and its external sponsors of research.

External support for the Institute will take the form of contracts, grants, and gifts. Major support will be provided under cost-reimbursable type contracts resulting from unsolicited proposals. These require that the Institute specify the exact form of the research it wishes to conduct. Once a contract has been made, expenditures are possible only under the authorization of the Principal Investigator on the basis of approved written proposals.

Initial support for the policy studies program will be provided by NASA, and the program in logistics and related areas will be funded by the Office of Naval Research. These efforts, as described above, will consist of publishable unclassified research which will have strong academic orientation and will be performed by an integral academic part of the University.

Dr. W. H. Marlow has been appointed as Professor in the Department of Engineering Administration and Director of the Institute for Management Science and Engineering. Participation by faculty members and graduate students from all schools in the University will be encouraged

as consistent with the multidisciplinary objectives of the Institute. In the effective university tradition, such participation requires that the individual becomes involved by his own free choice. Participation by staff research specialists will also be required in order to achieve preeminence in research. Special provisions are being made for substantial contributions from "distinguished visitors" from other universitites.

The Institute will disseminate its results through seminars, colloquia, and conferences. Special series of monographs are planned as part of the emphasis on open publication of results that will be available to any interested person.

-30-

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations.

Tuesday, September 2, 1969

Three new administrative appointments, effective September 1, were announced by President Elliott following a meeting of the Executive Committee of the Board of Trustees on August 27. Harold F. Bright, Vice President for Academic Affairs, has been given additional duties as Provost of the University. In his new position, Dr. Bright will be the chief administrative officer of the University under the President. Since his appointment as Chairman and Professor, Department of Statistics in 1958, Dr. Bright has held a number of administrative and research positions, including terms as Director of the Computer Center and as Acting Dean, School of Government, Business and International Affairs at GW. He is a member of a number of professional societies and has served as a consultant to various organizations, including the National Education Association, the Bureau of Social Science Research, and the District of Columbia Commission on Aging.

Dr. Seymour Alpert, Professor of Anesthesiology at GW's Medical Center, has been appointed Vice President for Development. In addition to his teaching and writing in the field of anesthesiology, Dr. Alpert is a member of the University Senate (executive committee for the last two years) and the executive faculty of the medical school. Among his other University committee positions, Dr. Alpert was the chairman of the Medical Building Fund Committee for the newly completed addition to the University Hospital and for the planned School of Medicine. He is a member and officer of several community organizations, including the United Givers Fund, the United Jewish Appeal of Greater Washington, the Greater Washington Jewish Community Foundation, the Metropolitan Boys Club, and Phi Delta Epsilon Medical Fraternity. Dr. Alpert is also a member and officer of various professional societies. The Medical Society of the District of Columbia has awarded Dr. Alpert its Community Service Award which will be presented at its annual meeting in September. Dr. Alpert will remain Professor of Anesthesiology in addition to his new duties at GW.

H. John Cantini, Jr., Assistant Vice President and Assistant Treasurer, has been appointed Vice President for Administration. Since 1957, Mr. Cantini has worked in the areas of financing and investment and in coordinating physical planning with academic planning. His new responsibilities will also include administration of campus security and of non-academic personnel services. In the latter area Mr. Cantini will help develop more extensive programs designed to train non-academic employees, especially those in less skilled positions, for further advancement. Mr. Cantini, a GW graduate (J.D., Business and Law, 1950), serves on a number of University committees, is a member of the Washington Board of Trade, and is a director of the YMCA (District of Columbia). He acts as faculty adviser to Omicron Delta Kappa, a national honorary fraternity.

The largest freshman class in GW's history is expected to register for the fall semester of 1969-70. About 1170 freshmen, 99 per cent of whom will be full time students, will not only be a large class but, if mean test scores are good indicators, should be somewhat better academically than their immediate predecessors. Places

-more-

for all 40 students in the tuition remission segment of the Educational Opportunity Program for inner city students have been filled, and some other students have been accepted under other segments of the EOP.

The Student Court adopted on August 20 detailed procedures to be used at hearings before the Court on presentation of a formal complaint against a student for misconduct. The 20 paragraphs of the hearing procedures specify the rights and responsibilities of all parties, and the manner and sequence in which proceedings are to be conducted. It has been suggested that the Student Court operate in a "non-legalistic" manner, and it is of interest to note two provisions of the procedures: "...A member of the Bar may be present at the hearing but shall not take any active role in representation; i.e. he may perform as an advisor but not as advocate," (para. 7), and "Rules of evidence as to admissibility and exclusion as are used by courts of law shall not apply to (student) court hearings. All evidence, if deemed by the Court to be competent and properly obtained, shall be admissible," (from para. 11).

Two University publications, GW Magazine, edited by David Jeffery, and GW News, edited by Betsy Ott, were honored this summer at the National Conference of the American Alumni Council. GW Magazine was selected as one of the "Top Ten Magazines of the Year" and received five awards in other categories. GW News received an Honorable Mention in the "Newsletter of the Year" competition, the sole category for newsletters, as one of the six publications so recognized. GW was the only school in the national competition to have two separate publications receive awards for overall accomplishment. Both publications are published by the Office of Public Relations.

THE MONDAY REPORT

The George Washington University

-- A weekly digest of significant information for administrative and academic officers. Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, September 15, 1969

Watch the GE College Bowl this Saturday, Sept. 20, at 5:30 p.m. on Channel 4 when GW competes with Boston University in the opening match of the 1969-70 season. Members of the GW team are Mike Newcity, Cecelia Leahy, Cary Engleberg, Tim Ashwell, and Kathy Thomas. One of the five will serve as an alternate.

The announcement of the selection of a GW medical doctor as Statesman of the Year in Medicine will be made Wednesday night, Sept. 17, at Airlie House. A check for $5000 and a replica of a sculptured bronze bust of the recipient will be given to him. Secretary of Defense Melvin R. Laird will make the presentation. Eddie Albert will be master of ceremonies. The annual award has been made possible through a grant to the Airlie Foundation.

Mahmoud Soliman-al Maghreby (M.C.L.'64, S.J.D.'66) is the new prime minister of Libya. Mr. Maghreby's doctoral dissertation was entitled "Petroleum Legislation in Libya."

Fifty-eight applicants from minority groups have been accepted by the Law School, after an extensive recruitment drive by students and faculty throughout the South in schools with large minority populations. Twenty-five of the 58 have been given scholarships for the fall. A student-faculty committee, headed by Allen Eden, a black law student, has been working for more than a year setting up a tutorial program that will be made available to the students on a volunteer basis.

The separation of the Human Resources Research Office (HumRRO) from the University announced in the spring, became final Sept. 1 when the new HumRRO, the "O" now standing for "Organization," assumed all the contractural and other obligations for the old HumRRO. The new HumRRO has existed legally since April 15, 1969, when articles of incorporation were approved by the District of Columbia. Separation followed a review of the 18-year GW-HumRRO association which confirmed that HumRRO had not been fully enough integrated with the University's educational programs and that HumRRO did not have adequate administrative and fiscal flexibility to pursue its increasingly more diversified research programs.

The American Political Science Association has given its annual Woodrow Wilson Foundation Book Award to Robert G. Dixon, Jr., Professor of Law, for his book, Democratic Representation: Reapportionment in Law and Politics, a definitive work on the "one man - one vote" revolution. The award is given each year for "...the best book on government, politics, or international affairs."

More than 50 teachers of mathematics in inner-city schools sharpened their knowledge in a free program at GW this summer. Participants received financial support from the National Science Foundation. Ruth A. Bari, Assistant Professor of Mathematics, directed the program.

A pictorial feature about H. Irving Gates, Assistant Professor of Art, was published in The New York Times Sept. 1 under the title, "A Victorian House Is Filled with Art and Ghosts." Mr. Gates is a sculptor; his wife, a painter who teaches at Hood College. Their brick Victorian home in Frederick, Md., is described by the Times as "an art object... an environment."

GW has received a grant of $318,145 from the Office of Economic Opportunity, enabling the National Law Center to continue its Urban Law Institute under the direction of Jean C. Cahn. The Institute leads to a master's degree in poverty law. Seventeen VISTA lawyers are currently enrolled in the program.

A five-part feature series on the non-credit Developing New Horizons for Women program ran in the Evening Star the week of Sept. 1. Each article featured individual women who have benefitted significantly from the program. Dr. Ruth H. Osborn, director of the program, said the response to the Star series has been "the greatest we have ever had. More than 300 women have telephoned or come to our office for information on the course as a result of the series." To accommodate the increased numbers who are enrolling in the course, CGS has granted permission for a second class to be scheduled this semester.

This Week, a nationally sydnicated magazine with 14,000,000 circulation, recently reported a warning by GW Medical Professor Allan B. Coleman that "an ever-increasing number of young children are made seriously ill by the poisons in household products." He said "many such products could easily be dropped from family use because they are either obsolete or unnecessary, or there are safer substitutes available." He listed seven such hazards including carbon tetrachloride (a kind of cleaning fluid), boric acid, camphorated oil, aspirin, polishes containing mineral oil, and highly alkaline drain cleaners and dishwater detergents. If you have young children and must have such products, says Dr. Coleman, look for brands packaged with child-resistant safety closures.

J. Saunders Redding, Professor of American History and Civilization, has been appointed to the Board of Trustees of Brown University. A member of both the Department of History and the American Studies Program, Professor Redding has published a number of important works in Negro culture and history.

For the second consecutive year, the J.S. Bach International Piano Competition will be held in Lisner Auditorium. The dates: Sept. 26, 1 to 5 p.m.; Sept. 27, 9 a.m. to 6 p.m.; and Sept. 28, 2 p.m. to 6 p.m. The auditions are open to the public, without charge.

"Le Paradis de L'Enfant," an exhibit of photographs of Washington, D.C., is currently on display in the George Washington University Art Gallery in Lisner Auditorium.

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations. Editor, Betsy Ott.
Circulation expanded with this issue to include more members of the GW community.

Monday, September 22, 1969

Dr. Brian Blades, Lewis Saltz Professor and Chairman of the Department of Surgery, became the first recipient of the annual Statesman in Medicine award at Airlie House on Sept. 17. Defense Secretary Melvin R. Laird (who as a Congressman was the ranking member of the House HEW Appropriations Committee) and Mortimer M. Caplin (president of The Airlie Foundation Board of Directors, a GW trustee, and former head of the Internal Revenue Service) made the presentation, which included a replica of a sculptured bronze bust of Dr. Blades and a check for $5,000. The award, made possible by a private endowment to the Airlie Foundation, is for significant contributions to the advancement of medical practice, research or education.

Nine GW law students who formed a non-profit corporation (Greater-Washington Alliance to Stop Pollution - GASP) to fight pollution caused by area buses expect a decision this week on their request for a public hearing. The group filed a complaint in August with the Washington Metropolitan Area Transit Commission charging that buses of the D.C. Transit System, Inc. and all other bus companies under the jurisdiction of the WMATC constantly emit excessive amounts of smoke and other obnoxious and harmful elements into the air of the metropolitan area in violation of WMATC regulations.

George Washington and Children's Hospital have joined in a close affiliation designed to improve medical education and patient care. The agreement calls for most of GW's pediatrics training to be done at Children's where the staff will be enhanced by the addition of University faculty members, medical students, interns and residents. The affiliation will also give GW the clinical facilities it needs to expand its medical school by approximately 35 per cent by 1972, as well as an "uptown campus" when Children's moves to new quarters on the grounds of the Washington Hospital Center in 1973.

Among new courses being offered this fall is a research seminar on "Materials in American Negro Culture," taught by J. Saunders Redding, Professor of American History and Civilization. The seminar is for graduate students in history and American studies.

New approaches to the study of urban problems is the focus of two academic programs at GW this fall. One combines urban-related courses from six departments into a concentrated program in urban affairs. Offerings include Race and Minority Groups, Urban Sociology, Urban Psychology, Urban Settlement, Urban Transportation, Schools in the Society and a basic two-semester course in state and local government. The other is concerned with the application of the humanities to urban problems, particularly those of the Washington area. GW is one of five universities nationally to receive a grant from the National Endowment for the Humanities for the development of such a program, which is designed to relate classroom teaching in such humanities as philosophy, literature, languages, and the social sciences to the urban setting.

(over)

The Library of
The George Washington University
Washington, D. C.

Among New Academic Appointments: Dr. Wallace N. Jensen, formerly professor of medicine and vice chairman of the department at Ohio State University, has been named Professor and Chairman of GW's Department of Medicine. He succeeds Dr. Thomas McPherson Brown, who will continue as Eugene Meyer Professor of Medicine and focus his major efforts in arthritis and rheumatoid diseases....Dr. Cesar A. Caceres has assumed the chairmanship of GW's new Department of Clinical Engineering....James L. Breen of Tulane University has been named Professor and Chairman of GW's Department of Physical Education. This year, for the first time, the men's and women's physical education programs will be combined under one department of physical education....Anthony Marinaccio, the former president of Hiram Scott College in Nebraska, is a new Professor of Education at GW.

Faculty members may now purchase academic caps and gowns at a 25 per cent discount, based on a minimum of 20 orders. For further information, contact Professor Latimer, x6125.

Summary of News Items from the Sept. 15 Monday Report: Fifty-eight applicants from minority groups have been accepted by the Law School, after an extensive recruitment drive by students and faculty throughout the South....The separation of HumRRO from the University became final Sept. 1....The American Political Science Association presented its annual Woodrow Wilson Foundation Book Award for "the best book on government, politics, or international affairs" to Robert G. Dixon, Jr., GW Professor of Law, for his book, Democratic Representation: Reapportionment in Law and Politics.... More than 50 mathematic teachers from inner-city schools sharpened their knowledge in a free program at GW this summer, which was directed by Ruth A. Bari, Assistant Professor of Mathematics, and supported by the National Science Foundation....GW has received a grant of $318,145 from the Office of Economic Opportunity, enabling the National Law Center to continue its Urban Law Institute, which offers a degree in poverty law.

SELECTED CALENDAR EVENTS FOR THE WEEK

26 Friday

BACH INTERNATIONAL PIANO COMPETITION - eliminations and semi-finals. Lisner, 1 - 5 p.m. free. (also Saturday 8:30 a.m. - 5 p.m.

27 Saturday

"The Believers" - A Black Experience in theater. Sponsored by Performing Arts. Lisner, 8:30 p.m.

28 Sunday

BACH INTERNATIONAL PIANO COMPETITION - finals and presentation of awards. Lisner, 1 - 6 p.m. free.

STATEMENT FROM THE PRESIDENT
Monday, September 22, 1969

Campus unrest, a widely used but vaguely defined phrase, is a matter of major concern to all members of the educational community - students, faculty, administration, and trustees - and to many members of society at large. There are those who see only the violent manifestations of unrest while others express concern only with the causes underlying the tumult. The George Washington University is concerned with the full spectrum of the cause, nature, and effects of its members' responses to the problems of the University.

The University is dedicated to the proposition that there must be freedom of expression on campus if the University is to be true to its aims. This freedom must be unrestricted, subject only to the preservation of the rights of all members of the community and to the laws of the land. I maintain that ours is not, despite claims to the contrary, a closed, repressive society. If it does not live up to all the ideals it professes, including those dealing with freedom of expression, that failure is one of men within society - and can be corrected only as we exemplify our ideals in our actions. It is difficult to see how our National or University ideals can be improved through violence that destroys what is good along with what may be evil. Too often, however, similar arguments have been used to preserve the status quo, to suppress progress, or to prolong abuses of power. Such repression has no place on this campus.

The implementation of a fair policy, equally applied, is not easy. The student may confuse his right to be heard with a certainty of having his opinion adopted. The faculty or staff member may confuse his role as guide and mentor with a position of unquestioned authority. With good will on both sides, with the development of open channels of communication among all parties, with understanding by faculty and administration of the impatience of youth to know and to experience, and with understanding by students that all change is not necessarily progress, we can have expression without suppression, change without coercion, advancement without violence.

To provide and maintain open channels of communication will be a major task of the University this year. I ask each student to make use of the many existing means of expressing his views: action through the Student Assembly, the Committee on Research, departmental councils, University Center Boards, and other organizations; letters and articles in the Hatchet; rallies and assemblies so conducted as to preserve the rights of all; and direct petition to faculty or administration. I guarantee a full hearing by the responsible members of the University to all such expressions. I shall explore with members of the faculty and of the Student Assembly ways of extending the network of communication. As occasion warrants, I plan to advise the faculty and students of policies, plans or programs that will affect the University, so that all concerned may independently judge their merits. Since final responsibility, however, for the continued growth and preservation of The George Washington University rests with the President and Board of Trustees, I cannot (nor would I wish to) relinquish final authority. You may, on occasion, be heard and listened to without gaining assent. I ask in such cases that you understand that no unworthy motive prompts such a disagreement, and that you examine the motivations of those who would convince you otherwise.

(turn page)

A case in point occurred during the past year. As President, I refused, when specifically requested by a group of students, to abolish the Sino-Soviet Institute. The programs of the Institute constitute a legitimate part of the total effort of this University, and I shall work to strengthen, rather than to impede or cancel, such programs. This is but one example, and there is another side of the ledger. Students questioned the lack of clearly defined policy on the acceptance, conduct, results, and dissemination of research performed on campus. Working with professors and administrators, students helped provide direction where previously there had been none. We may look at the policies adopted as models both of constructive cooperation within the University and as guidelines for the extension of human knowledge in the light of the dignity and preservation of humanity.

Working together we can shape a better University; devoting our energies to violence or to coping with violence, we cannot. I urge you to join in the tasks of learning and building and growing, as members of The George Washington University.

--Lloyd H. Elliott

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, September 29, 1969

STATEMENT FROM THE PRESIDENT

The George Washington University has, through a number of authorized spokesmen, and, in a variety of statements, made plain its intention to provide a forum for all views, providing only that laws of society are not violated and that the rights of all members and guests of the University are accorded full and equal protection. There is room for dissent in the University, indeed there is need for dissent, but there is no place for disruption on the campus, nor will the University permit the rights of any member or guest of the University to be denied. Any person who disrupts the activities of the campus or violates the rights of members of the University community or its guests will face action designed to end such unwarranted behavior and to prevent its recurrence. It must be clearly understood that the University will make every effort to insure the best possible environment for learning on its campus. The following sections of this document outline University procedures to be followed in the event actions occur which threaten the orderly pursuit of the goals of the institution.

Responsibility

The members of the Faculty of The George Washington University, including the President, are responsible under the University's charter for the maintenance of discipline on the campus. The Faculty, as a body, has delegated day by day administration of this responsibility to the President, and, in turn, specific functions have been assigned by the President to various members of the staff.

In the event of potential or actual disruption of the operations of the University, the Provost will assume control of the University's response and is authorized to take any and all steps enumerated herein to restore order. The Provost shall have the assistance of a designated group of Administrative officers in the discharge of these duties.

Actions

If information indicates the possibility of disruption of the University, the Provost may summon his advisors and shall make all reasonable efforts to avert such disruption. Grievances or requests shall be directed through appropriate representatives of the University. While informal discussions may be held as appropriate, negotiations will not be carried on under coercion or threats of violence or with individuals claiming, without authority, to represent students or any other group.

(over)

The Library of
The George Washington University
Washington, D. C.

If despite the foregoing, unwarranted or disruptive acts should occur, the Provost may take any or all of the following steps:

a. Direct the clearing of any University property.
b. Initiate civil injunction procedures to stop the unwarranted actions.
c. Summon the Metropolitan Police Force.

When he judges the situation to be under adequate control, the Provost may cancel any or all of the foregoing consonant with the law. If the Metropolitan Police have been summoned, however, command at the scene is in the hands of the ranking officer, and there can be no redisposition or reduction of the means of control without his consent. Likewise, any other law enforcement officer, such as a U.S. Marshal, performing his specified duties under the law, is understood to retain the complete powers of his office.

Complaints against alleged offenders may be initiated by any member of the University community and submitted to the office of the Vice President for Student Affairs for screening and referral to the appropriate body of initial jurisdiction. University judiciary procedures for both students and faculty are contained in other documents. The Provost may, at his discretion, instruct the Vice President for Administration to lodge a complaint on behalf of the University, either before a University judiciary body or before civil authorities.

Within ten working days of any action covered herein, the Provost shall report to the Faculty Assembly or the University Senate, as appropriate, a digest of the events, actions, and results arising from disruptions or other unwarranted behavior, as well as disciplinary actions taken or contemplated. A copy of this information shall be furnished simultaneously to the President of the Student Assembly as the elected representative of the student body, and to the Editor of the Hatchet for publication.

While it is our earnest hope that recourse to the procedures outlined above will not be necessary, the University must reaffirm its commitment to the free and open exchange of ideas and viewpoints, unimpeded by harrassment, coercion, or disruption. Indeed, that guarantee goes to the heart of the purposes of this, or any, institution of higher learning. To abandon free inquiry, discussion, and debate would be to abandon the University's reason for being; to uphold that principle is to renew our covenant with the pursuit, if not always the realization, of truth.

--Lloyd H. Elliott

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, October 6, 1969

The following is President Elliott's statement concerning the University's role in the October 15 War Moratorium -- The Nation's involvement in the war in Vietnam is of profound concern to Americans, and a nationwide movement to express that concern will culminate on October 15. It is to be hoped that these expressions will be beneficial.

After conferring with faculty and student leaders and with the agreement of the Executive Committee of the Senate, I believe the following best reflects this University's acknowledgement of the activities planned for October 15: Although George Washington will not close on October 15, we recognize that members of the University community have constructive expressions to contribute both in and out of their classes and offices, and should not be discouraged from doing so. It is suggested, therefore, that examinations or other classroom activities which might penalize absentees on October 15 not be scheduled.

A request from the G.W. Moratorium Committee for use of the yard behind the Library from 11:00 a.m. until 1:00 p.m. on October 15 will be approved, and classes conducted in classrooms and laboratories in the immediate vicinity will be moved, rescheduled or cancelled according to the instructors' wishes.

Henry W. Geiglein, special agent in charge of the Washington Field Office of the Secret Service, has been appointed to the newly created position of University Director of Safety and Security. Mr. Geiglein will retire from the Secret Service position and assume the post at G.W. on Nov. 1. He will conduct training sessions and institute policies to upgrade the University's Campus Security Force. The appointment is in line with the recommendations made by a joint student-faculty committee on campus security operations.

Mr. Geiglein, 51, was selected because of his background in security operations and his "familiarity with the Washington area and with District problems," according to Vice President H. John Cantini. Mr. Cantini said the appointment "is in keeping with the movement in many universities to change the concept and function [of a security force] from one that locks up buildings to one that provides for the safety and welfare of the entire university community."

Other recommendations of the ad hoc committee that will be implemented include: installing emergency telephones in various places on the campus to provide direct contact with the security office (several of the 18 phones planned already have been installed); providing additional night lighting at key campus areas, such as behind the library and various class buildings; transfer of the campus security office from Stuart Hall to Woodhull House; providing motor scooters for the security force to expedite its 24-hour coverage of the campus; and providing "emergency phone stickers" which give the telephone numbers of the security office, hospital and fire department (these currently are being distributed and are being pasted on all campus telephones).

"Give more...Get back a better community..." is the theme of Washington's 1969 United Givers Fund Campaign. As a member of the National Capital Community, GW begins its campaign today. Keymen will contact members of the University community throughout October and part of November.

(over)

A nine-month campaign to raise $1,000,000 for the University Center is underway, under the direction of Roger Craver, Assistant Director of Development. Julian Singman (Columbian College '50), a partner in the Washington law firm of Landis, Cohen, and Singman, is chairman of the campaign, which will run through June 30, 1970. Friends, alumni (except law and medicine), certain businesses, some parents, and foundations are being solicited. A campaign committee, comprised of faculty, students, trustees and alumni is working with Mr. Craver and Mr. Singman.

The University has completed the purchase of the southeast corner of 22nd and H Sts. (733-22nd St. and 2144 H St., N.W.) and the southeast corner of 23rd and Eye St. (2206, 2212, and 2222 Eye St., N.W.) The latter purchase includes the eight-story apartment buildings Milton and Munson Halls. These buildings will continue under the management of the H.L. Rust Co.

Two GW service employees have taken advantage of the free tuition benefits for dependents to give their daughters a University education. A full-time housekeeper has a daughter who entered GW last spring and is enrolled again this fall. Another, employed as a night maid for several years, has a daughter who was admitted this fall. Although GW, like many other universities, has granted free tuition to dependents of faculty members for years, the GW policy of extending this fringe benefit to all full-time administrative, clerical, and service employees was put into effect in February, 1967. The number of administrative and clerical employees taking advantage of the tuition benefits for dependents far exceeds that of faculty.

Michael Novak, provost of the Disciplines College of the State University of New York at Old Westbury, will speak on "The Need for Revolution" in Lisner Auditorium, Oct. 7 at 8:00 p.m. under the sponsorship of the Board of Chaplains. Prior to the evening lecture, Mr. Novak will speak at a noon luncheon meeting at the Union Methodist Church on "Politics, Realism, and Institutions."

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations.

** SPECIAL FRIDAY EDITION, OCTOBER 17, 1969 **

PROJECTED TUITION INCREASES

The Board of Trustees, at its meeting yesterday, modified the projected tuition increases for the 1971-72 and 1972-73 academic years.

The University's projected four-year budget cycle, as approved by the Board in January, 1968, and January, 1969, had called for a $100 increase in tuition annually through 1972-73. These projections were based on anticipated economic conditions and were stated to be subject to change if justified by the nation's and the University's economic position. In revising the projections yesterday, a Board spokesman noted that in January of 1968 and 1969 inflation did not appear to be the real threat to the economic stability of the University that it is today. He noted that the rise in living costs during the past two years exceeded the rises of the preceding five years, and that the costs of almost all goods, products, and services have been rising rapidly.

The Board, however, feels that the University can proceed through 1970-71 without changing the originally projected tuition increase of $100 for that academic year, the fourth year of the University's first four-year budget cycle. But for 1971-72, it was found necessary to add an additional $25 a semester, bringing the total projected tuition increase for that year to $150; and for 1972-73, it was necessary to add $50 a semester to the previous projection, resulting in a new projected increase of $200 for that year. The following are the revised projections for undergraduate tuition rates for the next three years:

1970-71	$1,900 (as previously projected)
1971-72	2,050
1972-73	2,200

Comparable increases are also projected in the professional schools for the 1971-72 and 1972-73 academic years.

Projected part-time rates were increased for 1971-72 from $72 to $74 per hour; and in 1972-73 from $76 to $80.

During its first four-year budget cycle, the University placed major emphasis on increasing average faculty salaries in all ranks to the "A" scale of the American Association of University Professors. This will be accomplished in 1970-71, as anticipated. The revised tuition projections for the following two years will help maintain faculty salaries at the "A" scale.

-over-

The Library of
The George Washington University
Washington, D. C.

In addition, it is apparent that after 1970-71 the requirements for additional faculty and staff members, for faculty promotions that have been postponed,and for increased educational opportunities for disadvantaged students will be in excess of the resources provided by the tuition increases previously scheduled.

NON-ACADEMIC SALARIES

Another significant factor is the University's concern for the salaries for its non-academic personnel. Although merit increases have been given annually to these staff members (as prescribed by the University's position and salary classification schedule), these salary increases for the past two years have not kept pace with the ever-rising cost of living (consumer prices, goods, and services). The Bureau of Labor Statistics reports the following increases in Consumer Price Index figures nationally and for the Washington metropolitan area (1957-59=100):

	Nationally	% of increase over previous year	Washington Metropolitan Area	% of increase over previous year
August 1966	113.8		114.0	
August 1967	116.9	2.7%	117.3	2.9%
August 1968	121.9	4.3%	123.1	4.9%
August 1969	128.7	5.6%	130.8	6.3%

It is also pertinent to note that the impact of price inflation has hit harder in Washington than in 50 other major cities surveyed by the Bureau of Labor Statistics.

The percentages shown in the above table mean that an individual must have a comparable increase in take-home pay just to keep pace with his standard of living during the previous year. At George Washington for each of the past two years, the take-home pay from merit salary increases for non-academic personnel has been less than this break-even point, which means that GW's non-academic personnel are "worse off" financially this year than last -- and, this negative difference will become even greater in future years unless there is immediate correction. Because of this difference, the University already is having difficulty in both retaining and recruiting effective staff members. For example, at the clerk-typist and secretarial levels, the University is running between 5 and 10 per cent behind the Federal competition.

COST OF LIVING ADJUSTMENT

Therefore, for the first time in the University's recent history, an across-the-board, equitably applied cost-of-living adjustment for full-time,non-academic personnel will be made, effective January 1, 1970. This will be in addition to the merit increases given annually on an individual's anniversary date.

The necessary funds for this cost-of-living adjustment result primarily from the willingness of deans, department chairmen, and office administrators to absorb the additional costs by holding back on plans for

personnel expansion. Another source is revenue resulting from a modest, but unanticipated, enrollment increase. Exclusive of The Medical Center and Sponsored Research projects, the annual cost of this cost-of-living adjustment will be around $420,000, and after 1970-71 about $350,000 of this amount must be provided from tuition income.

FREE LIFE INSURANCE

Of further special interest to all full-time faculty and staff members are recently approved revisions in the University's Group Life Insurance Program. These revisions include:

A $2,000 life insurance benefit (with a double indemnity clause) for all full-time staff members which is non-contributory (entirely paid for by the University), effective November 1st, 1969.

A reduction in cost for those staff members now enrolled in the contributory group life program since $2,000 of their total benefit will become non-contributory insurance, effective November 1st, 1969.

An increase in insurance coverage up to a maximum of $40,000 for those previously restricted by a $20,000 ceiling, to be effective following completion of a new enrollment card.

A continuation of the life insurance benefit for retired staff with a $1,000 lifetime benefit, including those who retired June 30, 1969, and thereafter. Participants in the contributory plan, upon retirement at age 65, will receive a 50% reduction in the face value of their policy and a 20% reduction each succeeding year, down to the $1,000 lifetime benefit.

Full-time faculty and staff members will be contacted soon by the Office of Personnel Services to verify their beneficiaries. At that time, they also will be given the opportunity to enroll in the contributory plan or, for those already in that plan, to adjust the amount of their present coverage, if applicable.

Funds for these revisions in the Group Life Insurance Program have resulted from dividends returned to the University because of GW's "very favorable" claim experience.

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, October 27, 1969

The Board of Trustees on October 16 approved a recommendation by President Elliott to form a Commission to examine more fully the governance of the University. "To this end," said the President, "I recommend the establishment of a broadly representative (Commission) to examine responsibility, authority and decision making in the University." The Commission will be asked to make recommendations "for such changes as are determined to be desirable."

Dr. Elliott's statement noted further: "In calling for this study, I believe it is important that George Washington make its own modest contribution to the general body of knowledge and experience in institutional governance and that such present practices as are proved valid under the scrutiny of the Commission be reaffirmed for the guidance of the institution in the years ahead."

The Commission chairman is University Trustee James M. Mitchell, director of the Advanced Study Program of the Brookings Institution. The Commission will be composed of faculty, students, alumni, friends of GW, and other trustees.

In addition to the Commission, and those items previously noted (see the Special Edition of The Monday Report, Oct. 17), other Board action included:

Approval of an Amendment to the University Faculty Organization Plan to enable emergency meetings of the Faculty Assembly. Basically, this Amendment provides that "A special meeting of the Assembly may be called by the President or by the Chairman of the Executive Committee of the University Senate, or in the absence of the President by the Vice President for Academic Affairs, or by any of these at the request of fifty or more members of the Assembly for any time and place, giving as much notice as the circumstances permit. The agenda for a special meeting shall be prepared by the person calling the meeting, in consultation with the Executive Committee of the Senate as far as practicable."

Approval of a Resolution on Public Ceremonies passed by the University Senate, Oct. 10. Problems raised by larger graduating classes, possible inclement weather, the cost of maintaining a temporary set-up in the University Yard (with cost of reservations for Constitution Hall), and the desire for student participation in the planning of public ceremonies prompted a study by the University Senate's Committee on Public Ceremonies. The following resolution is one adopted by that Committee, the full Senate and the Board of Trustees:

Be it resolved:

1. That the ceremonies for the June Commencement be held for each individual school in places (e.g., Constitution Hall, Lisner Auditorium, the theatre in the University Center) and at times determined by the respective Deans and the Committee on Public Ceremonies, the format of the programs being prepared by the Deans, representatives from the student body, and the Committee; and

-over-

2. That a convocation be held for the undergraduate members of the graduating class in conjunction with the June ceremonies; and

3. That honorary degrees, alumni achievement awards, and the status of emeritus faculty may be conferred in the ceremonies of appropriate schools at the June commencement and that degrees and awards especially suited for an all University occasion may be granted at the Winter Convocation or a special Honors Convocation; and

4. That the President's Reception be discontinuted, and that receptions or other appropriate social functions for graduates and their families may be held by the respective schools and colleges in the University Center or elsewhere.

Doug Gould is the new Sports Information Director at GW, succeeding Jack Zane, who has accepted a similar position at the University of Maryland. Mr. Gould was formerly employed in public relations with the National Institute of Dry Cleaning. He is also employed part time by the Washington Post Sports Department.

GW's Department of Engineering Mechanics will sponsor a seminar on "Computer Application in Traffic Flow Studies" on Wednesday, Oct. 29 at 2:00 p.m. in Tompkins Hall, Rm. 102. Dinos Gazis, from the IBM Watson Research Laboratory, Yorktown Heights, will be the speaker.

The Luther Rice Society, whose membership includes individuals who have contributed $1000 or more to the University, was honored at a dinner on Oct. 15 at the Mayflower Hotel. Alumnus Brooks Hays (JD'22), a GW trustee, former Congressman, and a special assistant to President Kennedy, was the guest speaker.

Of the 284 members in the Society, 162 have made cash donations totaling $574,997.33. Another 122 members have made pledges amounting to $4,471,936.81 to be realized within the next five years.

The '68-'69 Annual Support Program raised $607,035.79 from 6787 contributors.

An article worth reading:

"The Black Youth Movement" by J. Saunders Redding, Professor of American History and Civilization at GW. "...the final test of Afro-American studies will be the extent to which they rid the minds of whites and blacks alike of false learning, and the extent to which they promote for blacks and whites alike a completely rewarding participation in American life."

The article appears in the Autumn issue of The American Scholar, a quarterly published by Phi Beta Kappa.

THE MONDAY REPORT

The George Washington University

- - - A weekly digest of significant information.
Produced by the Office of Public Relations. Editor, Betsy Ott.

Monday, November 3, 1969

A program to train 30 inner-city women as clerk-typists begins today at GW. A series of three, four-month training programs, the project is partially supported by a $67,380 grant from the U.S. Department of Labor. Ten students will work in university departments as clerk-typists for half-a-day during each four-month period. In addition they will receive supplemental training in the classroom where they will study such subjects as communication skills, business English, letter writing, computer language, planning and organizing one's time, interpersonal relations, and self development. The curriculum includes 11 courses.

Classified as GW employees from the beginning of the program, the trainees will be paid a clerk-typist salary. They will also receive all employee fringe benefits.

Mrs. Jean M. Dillion of Bethesda, Md., will teach the classroom subjects, working with only one student at a time. An experienced counselor, Mrs. Esther Sumlar of Alexandria, Va., will be responsible for helping the students to adjust to their new professional environment.

Mrs. Dillion and Mrs. Sumlar are but two participants in the project, which has ignited widespread interest in the GW community. Ten university offices will utilize the services of the girls for four months. Supervisors in these offices have already spent one full day in human relations training, reinforcing special supervisory techniques. An eight-member committee, comprised of students, faculty, Mrs. Dillion, Mrs. Sumlar, and personnel officers, will evaluate the students' progress on a semi-weekly basis. E.L. Phillips, professor of psychology, will test the interests and aptitudes of the students during the program.

The first 10 students were selected from a group of 25 applicants recruited through the Washington Concentrated Employment Program and the U.S. Employment Service.

Experiments on Tomoka, an 8-year-old gorilla, may hold the key to the cause and cure of rhematoid arthritis, a baffling disease that affects five million Americans. A member of the National Zoo family, the "personable" gorilla is the first-known animal model of rheumatoid disease ever found.

A research team from GW's Medical Center, headed by Dr. Thomas McP. Brown, Eugene Meyer Professor of Medicine and Chairman of the Section of Arthritis and Rheumatoid Disease, has worked with "the patient" since April when Dr. Clinton Gray, chief zoo veterinarian, told the doctors that Tomoka had developed severe arthritis in his left hand and wrist and his left foot.

According to Dr. Brown, Tomoka was given anti-mycoplasma medication intravenously at two-week intervals in order to penetrate tissue barriers and to reach the intra-cellular infecting virus-like organism. This resulted in progressive improvement and changes in the animal's blood picture which supported the diagnosis. During the course of the treatment, antibodies emerged which were specific for the infecting organisms, thus providing evidence that the mycoplasma organism was truly responsible for the rheumatoid expressions in this animal. Tomoka's symptoms — the failure to gain weight

-over-

The Library of
The George Washington University
Washington, D. C.

and grow, the pathological changes in the joint tissue and the blood findings (including the rheumatoid factor) — were all classical of rheumatoid disease which is the first time any animal has ever been found to have this condition.

"The fact," said Dr. Brown, "that the animal's disease was clearly associated with an organism which we have considered responsible for the same disease in man, but with less conclusive evidence (because of the overly-reactive state of man compared to a lower form of animal) suggests that for the first time, the revelation of the cause of rheumatoid disease in man is now within our grasp. This would mean, therefore, with an infectious element responsible, that rheumatoid disease is potentially curable and preventable."

It is of additional interest that the gorilla is the closest animal species to man in regard to similarity of the elements in the blood. This may be one reason why the expression of rheumatoid disease seems to be uniquely apparent in the gorilla and not, thus far, in other animals. "The significant factor here," said Dr. Brown, "is that data from Tomoka, the first animal model, can be compared with human statistics."

Dr. Brown said that future plans call for a continuing study of Tomoka. The research team, through repeated careful examination, hopes to be able to demonstrate a cured state of his disease, which has not been possible through the usual treatments of man. In addition, researchers want to study the blood of a larger sample of gorillas to determine the incidence of arthritis and its potential in these animals.

Dial X6900 for a weekly report of campus activities. The service is provided by the University Center Program Board.

Marcou, O'Leary and Associates, Planning and Urban Development Consultants, have been appointed to update and revise the University Long Range Campus Development Plan to meet the requirements of the Zoning Regulations of the D.C. and the National Capital Planning Commission.

A. D'arcy Harvey has been appointed director of the Consortium of Universities Urban Transportation Center. The Center will establish a new form of interdisciplinary training and research with regard to urban transportation problems, programs and planning. Fellowships are available to qualified graduate students. For further information, contact GW's Department of Urban and Regional Planning - X7475.

GW's Airlie Production Center collected two "Emmy" awards in independent production competition sponsored by the Washington Chapter of the National Academy of Television Arts and Sciences. The program "Flowers of Darkness," aired on NBC TV, and cinematographer Charles R. Strathman were the award recipients.

Max Farrington, Special Consultant to the President, has been elected by the Supreme Council, Ancient and Accepted Scottish Rite of Free Masonry, for the 33rd degree. This is the highest degree that can be conferred by the Scottish Rite.

MOBILIZATION/MORATORIUM DEVELOPMENTS

The University will remain open during the mid-November demonstrations, and classes and other University services will be conducted as regularly scheduled. This policy was recommended by the Executive Committee of the University Senate and approved by President Elliott. In its recommendation, the Executive Committee recognized that "events beyond the President's control may compel him to modify this policy."

In response to requests from the GW Mobilization/Moratorium Committee to accomodate various activities on Nov. 13, 14, and 15, President Elliott took the following actions:

--Offered facilities located at 1901, 1903, 1905, and 1907 F Street, N.W., for "day and evening meetings, seminars, lectures and other events." These buildings, recently acquired from American University, contain approximately 50 rooms: 24 classrooms, 20 offices, and 6 meeting rooms. The University will clean them and provide heat and furnishings.

--Denied the use of the University Yard for a "public speakers platform" on Thursday, Nov. 13, from 11 a.m. to 11 p.m. "because of the large number of classes being conducted in the area."

--Offered the use of the University Yard on Friday, Nov. 14, from 11 a.m. to 11 p.m. "for activities similar in nature to those conducted on Oct. 15."

--Refused the use of non-residential buildings for housing purposes on the evening of Nov. 14 and 15 because "the University is not licensed to use non-residential buildings for this purpose...and cannot therefore assume the risks arising from considerations of fire-prevention, health, sanitation, safety, and personal security which would directly affect the members of the University Community as well as any guests."

--Noted that the established guest policies for housing in residence halls "cannot be altered" because of the DC occupancy code and "because the University has an obligation to insure a living situation as normal as possible for regular residents."

--Made available the use of GW's dining facilities in Mitchell Hall, subject to the provisions that the preparation and serving of food stuffs on the premises be done by Slaters (the licensed operator), and that the University be reimbursed for all costs involved.

The President's response stated that the University expects the GW Mobilization/Moratorium Committee "to be fully responsible" for the use of facilities.

A report in the Hatchet that President Elliott had cancelled a concert by Laura Nyro scheduled for Nov. 15 in Lisner is incorrect. The concert was postponed until Nov. 22.

-over-

THE EDUCATIONAL OPPORTUNITY PROGRAM

A Special Report from President Elliott to the Faculty

As registration for the fall term is now complete, I should like to report on the Educational Opportunity Program which was adopted formally in May 1969 but which was initiated informally in the fall of 1968 with the admission to the University of some 25 undergraduate students and 7 students in law all of whom were given benefits under the tuition grant program. Of the 7 law students who registered in the fall of 1968 and 2 additional students in the spring of 1969, 6 are currently enrolled.

In the fall semester of 1969 we have 45 new freshmen and 19 sophomores continuing from 1968 registered under tuition grants. Fifty-three are in Columbian College and 11 in the School of Engineering and Applied Science. More than 85 such applicants were admitted this year from a total of slightly over 200 who applied. In addition to the 45 freshmen who accepted tuition grants out of the more than 85 admitted, 37 new students have been registered in the Law School from a total of 58 who were admitted and offered financial aid. This gives a total of 107 who are currently enrolled with financial help of the kind provided under the Educational Opportunity Program.

Under the advice and guidance of a Steering Committee with Professor Bernard I. Levy as Chairman, the Educational Opportunity Program has moved forward with considerable promise. An administrative staff headed by Mr. William Trent as Counselor and Coordinator is now providing effective direction under the guidance of the Steering Committee. A summer orientation program in which 29 of the incoming freshmen participated, was helpful in overcoming some of the problems presented by academic work in a university environment. Total University financial commitment during 1969-70, including summer orientation in 1969, now approximates $200,000. Continued expansion of the program to its full four-year level will require University resources of approximately $500,000.

From Federal sources, some $26,000 is also available. However, National Defense Education Loans, College Work-Study Funds and Educational Opportunity Grants are proving to be less effective and more difficult to obtain than was earlier hoped. Whether these programs can be made more helpful in the immediate future depends upon Congressional action, and there seems to be considerable interest in the Congress for expanding the whole concept of aid to the disadvantaged college student in a more realistic fashion. If this happens, the University's tuition grants can be used to help more students than is now the case. It is to be hoped that national policy on education will include Government financial aid to all economically disadvantaged students who can supply evidence that they have a reasonable chance of handling successfully a program of higher education.

-more-

I am advised by the Steering Committee that the greatest immediate need of the students now is academic support in the form of counseling, advising and tutorial help from tutors and members of the faculty. Some funds are available for the fall semester to provide a limited amount of counseling and tutorial help. It is hoped that the Office of Education through Congressional action will have funds available for tutorial help by the spring semester of this academic year. On a more long-range basis, however, it is imperative that additional outside funds be secured for grants-in-aid to students and for academic and counseling support.

Experience has shown that a student does not graduate from high school prepared to go to college unless such a goal is recognized as a reasonable expectation at the junior high school level or earlier. It is critical, therefore, that national policy in the form of financial grants-in-aid indicate to youngsters no later than the junior high years that higher educational opportunities will be open to them if upon graduation from high school they are prepared to go further. Such experiences, therefore, as we may have at George Washington University through the Educational Opportunity Program must be shared with the high schools and junior high schools; otherwise, the long-range values of this program for strengthening education in the earlier years will be lost.

In the process of recruiting and admitting students to the EOP Program we have been made very much aware of similar efforts of other colleges and universities. Within the Washington area there have been times when two or more colleges or universities were pursuing the same student only to find that institutions from afar were also on hand to offer financial aid and other inducements for college attendance. This has been especially true of colleges and universities striving to increase their registration of black students. While such competition is helpful to the applicant, the duplication suggests some waste of resources--all too scarce. This has led to exploratory discussions with representatives of institutions of the Consortium of Washington Universities. If administrative machinery can be developed which will make cooperation meaningful, a stronger program of support for all such students who are headed for college can be built.

From the experience thus far with the Educational Opportunity Program it is apparent that disadvantaged students can become advantaged in the area of higher education only if adequate financial resources can be acquired, strong counseling and academic support can be offered and the opportunity for higher education can become a part of the normal expectations of each child and each home.

Nominations for the 1969 Inventor of the Year Award, given by GW's PTC Research Institute are open until mid-November. Members of the University community who wish to make a nomination should contact the PTC office, X6450. The Inventor of the Year Award honors a journeyman or professional inventor who has made a significant patented invention or inventions even though he may not have had wide public notice.

Any instructor teaching a graduate course in which he or she plans to schedule a final examination should notify Miss Rosenblatt, University Business Office, X6400, no later than Monday, Dec. 1, in order to reserve a room for the examination during the final examination period. Traditionally, final examinations have not been scheduled in graduate courses at GW, but it appears that more are occurring.

8 December 1969

Franz Michael, noted expert in Chinese history and Far Eastern affairs, has been named director-elect of GW's Institute for Sino-Soviet Studies, to succeed the current director, Kurt London, who will retire next July 1.

Under Dr. London, its founder, the Institute has become one of the foremost centers in the nation for the study of China, Russia and Eastern Europe. Dr. Michael, 62, has been the Institute's associate director since he joined its staff in 1964. He also is a professor of Chinese history and international affairs and chairman of the Research Colloquium on Modern China.

A specialist in nineteenth-century China and in Sino-Soviet relations, he has testified several times before various subcommittees of the House Foreign Affairs Committee. At present, he is undertaking a study of China for the State Department and the Arms Control and Disarmament Agency.

Before coming to GW, Dr. Michael was assistant director and acting director of the Far Eastern and Russian Institute at the University of Washington in Seattle, where he taught for 23 years. He also was chairman of the Modern Chinese History Project, the first interdisciplinary research program in the field.

From 1933 to 1938, he worked and studied in China as a professor at the National Chekiang University in Hangchow. After the outbreak of hostilities in World War II, he accompanied the university on its march to inland China. In 1938 he left China and came to the United States. From 1938 to 1942 he taught Chinese affairs and European history and engaged in research at Johns Hopkins University. He still takes frequent research trips to Japan and the Far East.

Dr. Michael is the author of numerous articles and has written or contributed to more than 25 books, including The Origin of Manchu Rule in China, The Far East in the Modern World, and The Taiping Rebellion: Vol. I: History (volumes II and III, Documents and Commentary, are to be released soon). He recently finished the manuscript for a book on The Era of Mao Tse-tung.

A native of Freiburg, Germany, Dr. Michael studied medieval history, law and political science and specialized in Chinese studies at the universities of Freiburg, Hamburg and Berlin. In 1933, he received his doctorate at the University of Freiburg. He became an attache in the German foreign office that year but left because of Hitler's assumption of power in the German government.

GW's successful debate team has compiled a record of 8-2, defeating such teams as Northern Iowa, Washington and Lee, Brown, the University of Virginia, Wake Forest, Georgia (twice) and Florida. The Colonials won 10 of their 12 debates at the Twentieth Annual Wake Forest Novice Debate Tournament held recently in Winston Salem, N.C.

Earlier in November, GW copped first and second place finishes at a debate tournament at St. Joseph's College in Pittsburgh. Harvard, Columbia, Brandeis and Army were among the participants in this debate.

The George Washington University
Washington, D. C.

Charles E. Diehl has been appointed Assistant Vice President in the office of the Vice President and Treasurer. He will assume his new position on Jan. 1, 1970.

A retired Commander of the Civil Engineer Corps, U.S. Navy, Mr. Diehl holds degrees from Catholic University, Rensselaer Polytechnic Institute and George Washington. He has most recently served as the Associate Director of the Facilities and Housing Research Department of Stanford Research Institute.

He is a registered professional engineer and a member of the National Society of Professional Engineers and the Society of American Military Engineers, Tau Beta Pi and the Washington Building Congress.

College Bowl Medals will be presented to the members of GW's two College Bowl Teams at the Dec. 12 meeting of the University Senate. A reception will precede the meeting at 1:30 p.m.

Mimi A.R. Koehl, daughter of Associate Dean George M. Koehl of Columbian College and Mrs. Koehl, was crowned Homecoming-Centennial Football Queen at Gettysburg College recently. Miss Koehl is a biology major.

A group of GW women students will participate in WRC-TV's discussion program, "Frankly Female," moderated by Betty Groebli on the mornings of Dec. 8, 9, and 10 at 9:00. Subject of the three discussions is "Student Unrest."

Five GW law students who have incorporated as Students Opposed to Unfair Practices (SOUP) have delayed the Federal Trade Commission's planned settlement of its case involving Campbell Soup Co. advertising.

In March, the FTC charged Campbell and its advertising agency, Batten, Barton, Dustine and Osborne, Inc., with dropping glass marbles into bowls of soup so that pictures used in ads would show the soup full of vegetables and other ingredients on top of the concealed marbles. In late September, the FTC announced a proposed settlement order under which Campbell and BBD&O would be forbidden to repeat the practice.

The settlement remained open for public comment for a month, and the FTC normally would have adopted the order 10 days thereafter. But, on Nov. 17, FTC sources disclosed that the commission, by a three-to-two vote, has decided to keep the matter open while it decides what to do with the raft of objections filed by the GW students.

Jed W. Pearson, Jr., Associate Clinical Professor of Obstetrics and Gynecology at GW's Medical Center, was one of 24 DePauw University alumni honored recently in conjunction with DePauw's observance of the National centennial of football. The award receipients played football as undergraduates at DePauw and since have distinguished themselves in their particular career fields. Dr. Pearson serves as a trustee of his alma mater.

A series of three lectures on "The Changing Role of the University in American Life" will be presented at GW during December, January and February. Dr. Joseph Tussman, author of "Experiment at Berkeley" and director of the experimental college program at the University of California, is the speaker for the first lecture tonight (Dec. 8) at 8 p.m. in Lisner. The series is funded by a grant by the S and H Foundation, which is sponsored by the Sperry and Hutchinson Company.

GW's Mathematics Honorary will sponsor a lecture on "When is a Knot Not a Knot" on Dec. 10 in Stockton Hall, Rm. 30 at 3:30 p.m. Professor A.B. Wilcox, executive director of the Mathematical Association of America, is the speaker.

15 December 1969

The GW-Washington Project, created by a special grant, is engaged in a concerted effort to stimulate and develop appropriate University curricula and programs that will be useful to the Washington community.

Clarence C. Mondale, Associate Professor of American Civilization, is Director of the Project. Working with him are Roderick S. French, who will devote special attention to curricular development in the humanities; and Robert E. Cannady, who will act as liaison between inner-city organizations and the University. Mr. Cannady also will be involved in coordinating work-study projects and in stimulating student and faculty volunteer projects.

The GW-Washington Project is funded for a five-year period. Its long-range objective is curricular change and development throughout the University, particularly at the undergraduate level. To carry out this objective, the Project will:

a. Encourage programs of work and field study, involving first-hand experience by students in the community.
b. Encourage research that addresses particular community needs in as direct a fashion as academic autonomy allows, with the possibility of graduate internships in Washington governmental and community organizations.
c. Seek interdepartmental and interschool cooperation in the development of curricula and in the coordination of University resources.

Professor Mondale hopes that response from departments and schools will "lead to an alliance of interests." No new administrative or academic unit is envisioned.

The Project is presently developing a work-study program in which students will combine work in a community organization or agency with study supervised by a faculty member.

For this spring, the number of such work-study positions will be limited, according to positions found in community agencies, availability of faculty supervision, and the suitability of students for particular jobs. It is expected that the number of such work-study positions will increase in the fall and spring semesters of 1970-71. Students who are accepted will enroll in Humanities 101, will be expected to work 12-20 hours per week, and will earn six academic credits. Interested students should contact Professor Mondale (296-2398).

Underway this fall is a sophomore course in "Experimental Humanities," which is studying individuality and community in the urban setting and is devoting most of the year to the study of Washington. Students are presently beginning field study of a wide range of topics of community concern, including housing, health, employment, black public media, and the history and future of certain neighborhoods. For most of the students, the field study of the first semester will be their initiation into the field project they elect for the second semester. Mr. Mondale and Mr. French are teaching the course this year. Next year, Mr. French and Professor Robert W. Holmstrom, of the Department

of Psychology, will teach an experimental course with a focus congenial to their joint interests, again giving particular emphasis to Washington. It is hoped that the course will stimulate student interest in urban studies and careers, and that it will serve as preparation for those students who wish to undertake a work-study project.

The Project has also supplied supplementary funding for GW's Education Opportunities Program, under the direction of William Trent. The funds have made possible a continuous evaluation of the progress of E.O.P. students as well as the establishment of a tutoring program.

Eight senior high school students from the Washington area are attending GW this fall as half tuition recipients and are earning college credits. These students are enrolled under the Secondary School Honors Program which draws more than 100 students in the summer from all over the nation.

The eight Washington-area students take courses in eight departments and tackle successfully such classes as Classics 131 and Mathematics 237. They may earn as many as 14 college credits by the end of the spring semester.

If Prof. E.L. Stevens, Chairman of the Executive Committee of the University Senate, cannot be reached at his regular number or through the speech department, please call X7198, the Senate phone number. If he is not there, Miss Ellison Royce, the new secretary for the University Senate, will take the message. Miss Royce, formerly with the National Architectural Accrediting Board, succeeds Mrs. Vaunita Kennedy, who is now employed in Vice President Bright's office.

Robert R. Kelly, formerly a campaign director with Tamblyn and Brown, Inc., fund-raising consultants, has been appointed to develop an alumni relations program in the School of Government and Business Administration. Mr. Kelly will work jointly with G.B.A. and the Alumni Relations Office. Mr. Kelly is a graduate of Ohio University.
